

Pricing Policy for Custom Projects

Updated: June 17, 2023

Each custom project is unique, and therefore, pricing for each project varies due to size, scope, and complexity. Quotes are formulated based on the following factors (note: not all projects will use all factors):

TIME

I estimate the amount of time it will take me to do a project and this factors in to the quote

MATERIALS

Materials that are not provided by the client (client-provided items must be pre-approved)

DESIGN FEE

Custom design that is created specifically for your project (varies by complexity/intensity).

DELIVERY & PICKUP

Delivery/Installation/Pickup/Removal of your custom items require an additional fee.

SHIPPING

If there is any shipping involved rather than delivery/pickup, you wil be charged accordingly

TRAVEL

Anytime travel is required, a per-mileage fee will apply.

LICENSING FEES

My designs are copyrighted and require a license for use (varies by type and duration)

RUSH FEES

Projects with tight timelines require a rush fee (if it is even possible to complete)

INCIDENTALS

Miscellaneous (but rare) fees for anything not covered in the above categories.
