Company Profile

Trafford Civil Pty Ltd

Overview

Founded in 2018 by industry professional **John Power**, Trafford Civil Pty Ltd is a proudly Australian-owned **Civil Construction Company** based in **Sydney, New South Wales**. Since its inception, Trafford Civil has built a strong reputation for delivering **high-quality civil construction projects** with precision, reliability, and integrity.

Our Vision

To be a leading force in the Australian civil construction industry by continuing to exceed client expectations and delivering infrastructure that stands the test of time.

- **Our Mission**

To provide exceptional civil construction services through innovation, skilled workmanship, and an unwavering commitment to quality and safety.

What we do

Trafford Civil specialises in a wide range of civil construction services, with a focus on delivering **high-quality, cost-effective, and timely solutions**. Our areas of expertise include:

- Stormwater, Water Supply and Sewer installation
- Utility and service infrastructure
- Civil works for residential, commercial, and industrial developments
- **Our Approach**
We pride ourselves on a collaborative and transparent approach, working closely with clients, consultants, and stakeholders to ensure the successful delivery of each project. Our team combines deep technical knowledge with on-the-ground experience, allowing us to overcome complex challenges and deliver outcomes that exceed our client's goals.

Why Choose Trafford Civil?

- ✓ **Experienced Leadership** - With almost a decade of industry insight, our founder leads with hands-on expertise and a commitment to quality that filters through every level of the company.
- ✓ **High-Quality Outcomes** - Quality is not just a promise — it's our benchmark. We maintain strict standards and use proven construction methods to deliver durable, high-performance civil works every time.
- ✓ **Client-Centric Approach** - We listen. We collaborate. We deliver. Our team works closely with every client to understand their goals and tailor solutions that align with their budget, timeline, and expectations.
- ✓ **Skilled and Reliable Team** - Our workforce is composed of experienced civil professionals who are dedicated to safety, precision, and delivering results without compromise.
- ✓ **Safety First, Always** - We operate under robust WHS systems and prioritize the wellbeing of our people, clients, and the community on every site, every day.
- ✓ **On-Time and On-Budget** - Through meticulous planning and project management, Trafford Civil ensures timely delivery and financial accountability — no surprises, just results.

Key Projects

Sydney Water – Kemps Creek

Scope:

Construction of a 3.5 km new sewer main, including dual 600 mm GRP pipelines.

Key Deliverables:

- Deep trench excavation ranging from 1.5 m to 4.2 m
- Installation of gate, air, and scour valves with associated pits
- Complex alignment and depth management for high-capacity sewer infrastructure
- **Outcome:** Delivered to Sydney Water standards with a strong focus on safety, environmental compliance, and quality assurance.

Rockhampton QLD – Mount Morgan Water Pipeline Project

Scope:

Installation of 11 km of 350 mm D.I.C.L. (Ductile Iron Cement Lined) water main as part of the Mount Morgan Water Pipeline upgrade.

Key Deliverables:

- Supply and installation of Type 1, 2 & 3 air valves
- Multiple directional changes with 11.25°, 22.5°, and 45° bends supported by engineered thrust blocks
- Full pressure testing and chlorination
- Pig swabbing for internal line cleaning and quality assurance
- Final restoration of disturbed surfaces to local council standards
- **Outcome:**
A technically demanding water infrastructure project delivered with a strong focus on **quality control, environmental care, and project safety compliance.**

Newcastle Inner City Bypass – Early Works Utility Diversions

Scope:

Delivery of complex utility relocation works as part of the early works package for the Newcastle Inner City Bypass upgrade.

Key Deliverables:

- Excavation of multiple bed bore shafts (15 m x 10 m x 3.5 m deep)
- Installation of engineered shoring boxes to support bed bore operations
- Placement of steel encasing pipe to accommodate 350 mm PVC conduits
- Installation of 450 mm concrete sleeve for 150 mm gas main diversion
- Installation of 150 mm PVC sewer infrastructure

Outcome:

A high-risk, technically demanding project delivered under tight timeframes, prioritising **safety, environmental controls,** and **utility asset protection.**

Our Services

Specialised Plant Hire

- Trafford Civil Pty Ltd offers reliable and flexible **plant hire services** tailored to meet the demands of modern civil construction projects. Our fleet includes a **wide range of excavators**, available for short- and long-term hire, featuring **industry-leading brands** such as **Kubota, Komatsu, and Hitachi** with 5T to 35T excavators available for hire with numerous **attachments**.

Specialised Plant Hire

Trafford Civil Pty Ltd offers a diverse and well-maintained fleet of **plant and equipment for hire**, tailored to support a wide range of civil construction and earthmoving needs. Our fleet includes:

- **2T, 4T, and 10T Tipper**s
- **Selection of fully equipped tool vans**
- **Hook Trucks** with interchangeable **bin and dumper attachments**
- A selection of **excavators, skid steers, and utility vehicles** (available on request)
- All plant is serviced regularly to ensure optimal performance, safety, and reliability. Whether it's for tight-access urban works or large-scale site operations, Trafford Civil delivers fit-for-purpose equipment with or without skilled operators to suit your project requirements.

Specialised Labour Hire

Trafford Civil Pty Ltd provides dependable and highly skilled **labour hire solutions** to support civil construction projects of all sizes. Our workforce includes experienced **site supervisors, truck drivers, plant operators, skilled labourers,** and **pipelayers**, all thoroughly vetted and ready to integrate seamlessly into your team.

- Whether you need short-term project support or long-term site personnel, Trafford Civil delivers qualified professionals who uphold the highest standards of safety, productivity, and workmanship — ensuring your project stays on track and on budget.

Pipeworks

Stormwater

Trafford Civil Pty Ltd provides expert **stormwater infrastructure solutions** to support effective drainage and flood management across a wide range of civil projects. Our stormwater services include the installation of pits, pipes, culverts, retention systems, gross pollutant traps, and more — all delivered in compliance with local council and environmental standards.

- We prioritise **environmental sustainability**, ensuring systems are designed and built to protect natural waterways and minimise erosion and sediment runoff. With a focus on **site safety**, quality, and long-term performance, Trafford Civil is the trusted choice for stormwater construction across NSW.

Water Supply

We deliver **reliable and compliant water supply systems**, ensuring safe and efficient distribution of potable and non-potable water. Our services include trenching, main and service installations, valve and hydrant placements, and pressure testing — executed to the highest standard of quality and regulatory compliance.

- At Trafford Civil, we recognise the critical nature of water infrastructure. Our team is committed to **environmental protection**, water conservation, and **strict safety protocols**, delivering infrastructure that serves communities reliably now and into the future.

Sewer

Trafford Civil specialises in constructing **sewer networks** that meet the demands of growing communities and commercial developments. Our expertise covers the installation of gravity mains, pressure sewer systems, manholes, pump stations, and associated infrastructure, all completed with precision and regulatory compliance.

- We take a proactive approach to **minimising environmental impact**, ensuring every project is executed with best practices in contamination control, ground stability, and ecosystem protection. Safety is at the core of our delivery, with our team trained and equipped to manage high-risk environments with confidence and care.

Certifications

Trafford Civil Pty Ltd operates with a **Certification of Confidence** across key management systems, reflecting our commitment to excellence, safety, and sustainability. We are certified in:

- ✓ **Quality Management Systems (ISO 9001)**
- ✓ **Environmental Management Systems (ISO 14001)**
- ✓ **Occupational Health and Safety Management Systems (ISO 45001)**

These certifications demonstrate our dedication to delivering consistently high-quality outcomes, minimising environmental impact, and maintaining a safe working environment for our team, clients, and the community. At Trafford Civil, compliance is not a checkbox — it's a standard we live by on every project.

Our Clients

At Trafford Civil Pty Ltd, we believe strong **client relationships** are the foundation of every successful project. We prioritise open communication, transparency, and a collaborative approach to ensure our clients feel supported and informed from start to finish.

By understanding our clients' goals and tailoring our services to meet their specific needs, we foster long-term partnerships built on **trust, reliability, and consistent performance**. Our commitment to delivering high-quality outcomes on time and within budget has earned us a reputation as a trusted civil contractor across Sydney and beyond.
