## FOR SALE: 1961 TRIUMPH TR3A

Longtime member, Bruce Aydelotte is selling his beautiful TR3A. Here is what CuznBrucie has to say about it....

I have owned this great example of a sidescreen TR3 for 10 years and it has been a joy to own, drive, and work on. It is reliable and drives unbelievably well. It has the following:

- Restored in 2009, including a two stage paint job in original Primrose yellow. The undersides of the hood, trunk and all fenders are as shiny as the tops!
- It has had new floors, an all-new interior in factory correct black leather and loop carpeting with new rubber mats with Triumph pattern molded in.
- It has a brand new top and tonneau from Moss Motors.
- The sidescreens are pristine and had been restored before I bought the cars.....they fit tightly and the plastic windows work perfectly. It is airtight and watertight while driving.
- The engine runs very strong and the serial numbers match the transmission and body.
- It has a rebuilt engine, rebuilt carbs, new battery and Pertronix electronic ignition.
- It has the alternator conversion from Moss Motors.
- Horns work well and there is an auxiliary air horn that is quite LOUD!
- It has a nice tight performance exhaust system with dual tips. It really growls as you go through the gears!
- Transmission has a correct numbers factory Overdrive, which when engaged gives you in essence, a fifth gear.
- The steering is from a TR4, and is rack and pinion.....very responsive and trouble free.
- I installed a wood 15" steering wheel from the Roadster Factory.
- I also installed a SONY stereo unit with CD, AM/FM, and a port for a thumb drive. There are two speakers in the kick panels, along with a high powered amp under the glovebox.
- All the gauges work and I've installed a British clock in the glovebox lid that matches all the other gauges.. It keeps excellent time and looks "factory"
- This car has new chrome 60 spoke wire wheels and new Michelin XWX radial tires.
- Please look at the photos for a better look!

\$25,000 OBO (higher)

**FOR SALE (FREE):** Intake manifold for 1973 TR-6. I replaced it from running car winter 2024. Reason for replacement, patch in hot water pipe. Old intake would take points off at car shows. I am restoring the car and have owned and drove the car regularly since 1975 with no issues.

Free + shipping cost of not picked up.

Donald Gray (C) 508-335-0399 Email: [tr61973@aol.com](mailto:tr61973@aol.com)
