CONTAINER DIMENSIONS

The following dimensions are approximate dimensions of a typical ocean container. Sizes and dimensions may vary depending on Steamship Line. For exact figures, please contact the Steamship Line directly. Maximum cargo weights listed are for the container capacity, and do not necessarily reflect the maximum legal highway weight. Therefore, the weights listed below are not legal over the road weights. To learn more about legal road weights in California, please view our cargo weights page.

20' Dry Containers

Inside Length	19'4"	5.89 m
