

CORPORATE SERVICES JUNE UPDATE

SAFETY MOMENT

Safety starts with awareness. A "good catch" is the identification of a hazard, unsafe condition, or process risk before it leads to an incident. By recognizing and reporting potential issues, employees play a critical role in preventing injuries, avoiding operational disruptions, and promoting a proactive safety culture. Every good catch, no matter how small, is an opportunity to improve our workplace and protect one another.

HR UPDATE

The Atwell Student Loan Reimbursement Program is one of our most popular benefits, helping team members pay down student debt faster while supporting their overall financial well-being. The program is available to full-time employees who have been with Atwell for at least 12 consecutive months and covers eligible loan payments made in 2025 on loans in the employee's name. New Office Openings/Moves:

- Boca Raton Office moved to Fort Lauderdale – New Address: 3511 West Commercial Blvd. Suite 100 & 101, Ft. Lauderdale, FL. 33309

CORPORATE SERVICES JUNE UPDATE

RECRUITING

Impact Atwell reinforces our company culture by encouraging greater employee collaboration while recognizing and rewarding those with great ideas for improving the business in the following areas:

1. **Employee referrals:** \$5,000 for full-time referrals, \$500 for temporary employees, and \$3,000 for SCS employees.
2. **New client prospect referrals:** \$300 per qualified meeting, \$2,000 upon a new project

LEADERSHIP SPOTLIGHT

Allen Peloquin, Senior Director: “To me, safety is much more than a program or a monthly focus, it is a commitment we make to each other every day. Whether we're working in the field, driving between projects, operating equipment, or supporting our teams from the office, every decision we make has an impact on the wellbeing of those around us.

At Atwell, and across all of our companies, safety must remain at the forefront of everything we do. That means looking out for one another, speaking up when something doesn't seem right, staying aware of potential hazards, and making choices that protect ourselves, our coworkers, and the communities we serve.

Safety is not limited to physical hazards. It also includes our mental well-being, our readiness to perform our jobs, and ensuring that everyone goes home in the same condition, or better than when they arrived. A strong safety culture is built on accountability, communication, trust, and genuine care for one another.

As we recognize National Safety Month, I encourage everyone to take a moment to reflect on how each of us contributes to a safer workplace. Safety is not the responsibility of a select few..it belongs to all of us, and it should be part of every conversation, every plan, and every decision we make.

At the end of the day, projects, schedules, and deadlines are important, but nothing is more important than making sure every employee returns home safely to their family. That is the standard we should hold ourselves to every single day.”

GOOD CATCH WINNER

While collecting ditch profile data near an oak tree, **Kirt Edmonston** noticed a small swarm around the tree trunk. Upon closer observation, it became apparent that the insects were yellow jackets and were becoming agitated due to the crew's proximity. Recognizing the potential risk of stings and injury, the crew immediately adjusted their planned survey route and rerouted the profile coordinates to maintain a safe distance from the nest. They then placed a labeled stake to show the issue to others, and the job was completed safely.
