LEADERSHIP SPOTLIGHT

Julie Foley, Vice President: “Safety isn't just following procedures — it's looking out for one another. That's our culture, and it's the cornerstone we build on every time we show up to work. Good Catch and Near Miss reports help us catch hazards before someone gets hurt. Every time you report what you see in AtwellSafe, you're strengthening that culture and protecting the person next to you. Every report matters. Every observation can make a difference.”

GOOD CATCH WINNER

While searching for a control valve, **Billy Davis** of the **Bradenton, Florida** crew noticed a leaking valve that was creating a potential slip hazard in the work area. He immediately alerted his crew to use caution and notified the site foreman of the issue. The foreman responded promptly and addressed the leak. By identifying the hazard and communicating it right away, Billy helped prevent a potential slip-and-fall incident and reinforced the importance of staying alert to changing site conditions.
