

Southern Legends

We use this term to refer to ourselves and our club because of the legends of this country who stood for freedom and made a difference. A legend seeks no fame. We are a motorcycle club. We are not in competition with any other

Motorcycle Clubs for business, territory, or membership. We respect all forms of riders for their desire to ride either solo or with a club.

We will attempt to support club charities and respect their colors, and expect the same in return.

The Meaning of Our Colors

Red - The color red represents the blood of the American Legends who fought for freedom from our forefathers to our present-day Armed Forces who continue the fight for our freedom.

Human Skull - The skull is the unyielding, undying spirit of the American rider to be free. Without expression, is something only the rider will understand...what it means to be free.

Crossed Pistols - The crossed pistols are symbols of our 2nd Amendment to protect our rights from out enemies both foreign and domestic.

The 13 Rounds - The 13 Rounds represent the original 13 Colonies who sacrificed everything to break free from oppression which gave us the rights we have today.

The History of the Southern Legends Motorcycle Club

The Southern Legends Motorcycle Club grew from common interests and visions shared by our founding members. The first gatherings can be traced back to early 2013 in Spartanburg, SC. Breaking away from tyranny prompted the need for organizational meetings to begin. By mid 2013, The SLMC Brotherhood was a reality and interest began to grow and expand our chapters. We look forward to continued growth and membership, learning from our trials and tribulations while bonding with our Brothers and Sisters.

Charitable Organizations Supported

Regional Hospice
Local Communities

We ride, as a Club, in several benefit rides and events throughout the year.

Southern Legends Motorcycle Club Spartanburg, SC

President
Nathan Lawter - Rooster

Vice President
