

THE GOOD OL DAYS

Ch:

These are the good ol days

just a change in circumstance

Might be a little hard to see

Might not be what you had planned

These are the good ol days

Future memories

These are the good ol days ya see

These are the good ol days ya see

V1

The leaves are changing colors

There's a nip in the air

The flames are dancin

But we just stand around and stare

Remember that one time

man I could hardly breathe

We were laughing so hard

Nearly brought me to my knees

Nearly brought me to my knees

Ch:

These are the good ol days

just a change in circumstance

Might be a little hard to see

Might not be what you had planned

These are the good ol days

Future memories

These are the good ol days ya see

These are the good ol days ya see

V2

Time waits for no one

Streams don't run up hill

The bad days will fade away

But the good times never will

I won't forget that day for as long as I live

Remember that one time

Back when we were kids

Back when we were kids

Ch:

These are the good ol days

just a change in circumstance

Might be a little hard to see

Might not be what you had planned

These are the good ol days

Future memories

These are the good ol days ya see

These are the good ol days ya see

These are the good ol days ya see

These are the good ol days ya see

These are the good ol days ya see
