

Up

Capo IV

V1:

I know you told me that someday this would all go away

Just like the mountains turning into sand on beaches some day

We used to think there couldn't be another way

Turns out we lost it have to try another day

CH:

We go up and we never come down

We're all lost in the middle of a rat race anyhow

We go up and we never come down

We're all caught up in the middle of the rat race anyhow

V2:

I still remember all the people who have crossed my way

It wasn't you it was me that's what I choose to say

It doesn't matter the truth will only get in the way

Even if it didn't you would probably think that I'm still okay

CH:

We go up and never come down

We're all lost in the middle of the rat race anyhow

Yeah we go up and we never come down

We're all caught up in the middle of the rat race anyhow

BR:

Once in a while my thoughts are my own

Every now and then it feels like home

Once in a while my thoughts are my own

Every now and then it feels like home

We go up and we never come down

We're all lost in middle of a rat race anyhow

Yeah we go up and we never come down

We're all caught up in the middle of the rat race anyhow

We go up
