

Superposition (2024)

It might seem like science fiction, these thoughts just seem to come and go
Resting in superposition, til my conscience makes it so
And I know these thoughts will haunt me til I die
I can't seem to chase 'em from my mind
I go out, but I still feel stuck inside
But they always seem to get me through the night

Now I'm one day removed
And I'm too close to seeing this thing through
They say third times a charm, but that's not true
Cause it's only for and about those things we do
Yeah we do

It might seem like an addiction, or just a way to pass the time
Counterpoints and contradictions, news reports and nursery rhymes
And I know these thoughts will haunt me til I die
I can't seem to chase 'em from my mind
I go out, but I still feel stuck inside
But they always seem to get me through the night

Now I'm one day removed
And I'm too close to seeing this thing through
They say third times a charm, but that's not true
Cause it's only for and about those things we do
Yeah we do

And I know these thoughts will haunt me til I die
I can't seem to chase 'em from my mind
I go out, but I still feel stuck inside
But they always seem to get me through the night

Now I'm one day removed
And I'm too close to seeing this thing through
They say third times a charm, but that's not true

Cause it's only for and about those things we do
Yeah we do, do, do, do, do, do, do, do, and we all do
Yeah we do, do, do, do, do, do, do, do, and they do too
Yeah we do
