

3 Forevers (2025)

Take anything you need, anything you think, will help you on your way
Be anything but blue, anything for you, to get you through the day

Maybe we can make it if we just hold on
It might seem like 3 forevers, but it really ain't that long
It was only yesterday we were singing silly songs about the town
And we fell down

I could find you in a crowd, a thousand years from now, just you wait and see
You sitting soaking up the sun like a cactus on the run with a kettle full of tea

Maybe we can make it if we just hold on
It might seem like 3 forevers, but it really ain't that long
It was only yesterday we were singing silly songs about this town
And we fell down, down, down

We can watch the sea receive the setting sun
As we count all of the numbers, between zero and one
It might take some time, if there ever was a thing
But I'll just wait and see what the morning brings

Maybe we can make it if we just hold on
It might seem like 3 forevers, but it really ain't that long
It was only yesterday we were singing silly songs about this town
And we fell down, down, down
Yeah we fell down
