

# LIFE IS GOOD

Capo IV

**V1:**

Somehow we're sitting here between the ocean and the beach

Cold drink in my hand and my good friends next to me

I've spent all day long just holdin down the sand

Tho I can't hold it all you know I'll do the best I can

**CH:**

But now I feel the waves come crashing into me

They march in one by one just like they should

They sneak in quick and try to steal the earth from underneath my feet

It's just a rhythmic reminder that life is good

Life is gooooooooood.... Life is good ...2X

**V2:**

Now the sun is high and watching over me

Warms my heart and soul but it burns up my feet

Late in the afternoon when the skies begin to change  
Some days just drag along you know and some days it rains

**CH:**

But now I feel the waves come crashing into me

They march in one by one just like they should

They sneak in quick and try to steal the earth from underneath my feet

It's just a rhythmic reminder that life is good

Life is gooooooooood.... Life is good ...4X

Walk Down Ending
