

The Way It Is:

There once was a time when the earth was flat

Til we got a little knowledge, and we never looked back

Just because they say it's so, don't make it so, so it seems

Growing up in the war on drugs

Til they made a lot of money now they handing out hugs

Just because they says it's so, don't make it so, so it seems

Now we've all got a choice to make

Do you believe everything they say

If you don't well it's probably ok

It's just the way it is

They told me that the devil wore a long dark coat

But they never said a word about stacking the vote

Just because they say it's so, don't make it so, so it seems

Now we've all got a choice to make

Do you believe everything they say

If you don't well it's probably ok

It's just the way it

Everybody's got words of wisdom to share

A penny for your thought's man I don't even care

Just because they say it's so, don't make it so, so it seems

I won't tell you if you won't tell me

It's all good enough to just let it be

Just because they say it's so, don't make it so, so it seems

It's just the way it is (Repeat)
