January

2026

You may think that it's just another day, but as you step from this day (December 31st) into the next (January 1st), you end up right into the next year as it is measured on the calendar. Just like that it's, "Welcome to a new year!" But how long did it take you to get here? Think about it. You can fill your whole life with counting how long. You sometimes count the seconds into minutes, you count the minutes into hours, you count the hours into days, and then the days into weeks, the weeks into months, and the months into years. If you are fortunate, you can consolidate the years into decades! With that last step, from yesterday to today, here you are in the year 2026. Happy New Year!

From your birth until your death, you are only given a certain amount of time here on this earth. It is unknown just how long that time will be. Some of us will spend more time here on earth than others, but we know it's not an infinite amount for anyone. As you journey through this life, it's not only the amount of time you spend here that varies for everyone, but what you do with the time you are given. We all live through various life events, experience different things, learn different lessons, we spend time with various people and we adhere to different values and certain people become important to us in our journey. Throughout your life time marches on, and as you age, you change. It's not a bad thing, it's just something that is.

When you were ten it seemed like it took forever to get from one summer to another. And when you're at the age you are now, in the blink of an eye, the whole year has gone by, and you wonder where it went! When you look at a whole year though, it's the exact same amount of time for everyone. You just perceive time differently as you age. And as the saying goes; "Time flies when you're having fun!" At this age, you must be having a LOT of fun!

With the flip of the page on the calendar you may be celebrating a new year, but what you should also be celebrating is another day walking hand in hand with the Father towards the finish line, whenever that may come. Let's go forward without worry, fear, or stress,

and rest in knowing that you are well taken care of by The One who loves you most. The seconds, minutes, hours, days, weeks, months, and years may change, but one thing always stays the same, our Lord! He is the same yesterday, today and forever!

To everything there is a season,

a time for every purpose under Heaven.

*For everything there is a season,
a time for every activity under heaven.
A time to be born and a time to die.
A time to plant and a time to harvest.
A time to kill and a time to heal.
A time to tear down and a time to build up.
A time to cry and a time to laugh.
A time to grieve and a time to dance.
A time to scatter stones and a time to gather stones.
A time to embrace and a time to turn away.
A time to search and a time to quit searching.
A time to keep and a time to throw away.
A time to tear and a time to mend.
A time to be quiet and a time to speak.
A time to love and a time to hate.
A time for war and a time for peace.*

What do people really get for all their hard work? I have seen the burden God has placed on us all. Yet God has made everything beautiful for its own time. He has planted eternity in the human heart, but even so, people cannot see the whole scope of God's work from beginning to end. So, I concluded there is nothing better than to be happy and enjoy ourselves as long as we can. Ecclesiastes 3:1-12
