

# RATE CHANGE NOTICE

## EFFECTIVE JULY 1, 2022

As you may be aware, Avgas fuel has more than doubled in the last few months. For your convenience, we want to continue the wet rate that includes fuel in the rental cost per hour. Due to the current fuel prices, we are forced to incorporate a temporary fuel surcharge. This surcharge will be removed as soon as gas prices level back down.

This temporary surcharge will be a \$20/hour increase for all aircraft and will be effective July 1, 2022.

We value your business! If you have any questions or concerns, please reach out to [KPNsair@gmail.com](mailto:KPNsair@gmail.com)
