Why use an Independent Editor?

Autobiographies are among the most popular read books and articles in the world. People are drawn to real-life situations and stories. It is critical that the author expresses their vision in such a way that virtually the writer's life is revealed on each page, enunciating their life and reality.

Although publishing companies have editors, they mostly review for basic content and grammar, but this is only a minor fraction of what it takes to make your book sellable.

Amy Campbell,
Executive Manager

"Let me help make your book powerfully moving, so that readers will live vicariously through the experiences you share."

Thus says the Lord, the God of Israel, write all of the words which I have spoken to you in a book. Jer. 30:2
