### To whom it may concern,

I enthusiastically recommend the Coach Numerologist programme offered by Oxford Numerology University.

This training stands out through its combination of visionary leadership, in-depth numerological analysis, and a clear methodology for personal transformation. As a student in this programme, I have deepened both my professional insight and my capacity to accompany others through meaningful change.

I started working with Prof. Dr. Diana Metiu in 2022, and I have witnessed firsthand her extraordinary capacity to train coaches within a numerological framework. What sets her apart is her ability to awaken deep understanding while maintaining structure, clarity, and a profoundly human approach. I can confidently affirm her authority as both an academic and a practitioner — her courses are an essential reference point in the evolution of modern numerology.

I strongly support the international recognition of this programme and of the institution behind it.

Sincerely,

**Gina Butoi**
