To whom it may concern,

I am writing to endorse the high-quality educational programmes offered by Oxford Numerology University, particularly the advanced level of Trainer Numerologist.

As a graduate of this programme, I can confirm that it not only equips students with advanced theoretical understanding but also prepares them to train and mentor others. The curriculum is comprehensive, and the mentorship provided by Prof. Dr. Diana Metiu is both empowering and rigorous.

I have had the privilege of learning from Prof. Dr. Diana Metiu since 2021. Her authority as a teacher is unmatched, and her understanding of numerological structures goes beyond theory — it becomes a living, applicable system. As a student in her advanced courses, I've witnessed her exceptional skill in mentoring future trainers and building an academic framework that elevates the field of numerology.

I strongly recommend the Oxford Numerology University to any institution seeking serious academic and professional training in this field.

Sincerely,

Alexandru Ciochia
