To whom it may concern,

I wholeheartedly recommend the Counsellor Numerologist training programme at Oxford Numerology University.

The level of emotional depth, analytical precision, and professional ethics embedded in this course is outstanding. As a graduate, I have personally benefited from the integrative model of numerology taught here, and I have been able to use this knowledge effectively in one-on-one client sessions.

My journey with Prof. Dr. Diana Metiu began in 2023, when I enrolled in this advanced programme. I can confirm without hesitation that her teaching style combines academic discipline with a profound emotional intelligence. She brings an impressive range of references from the arts, science, and psychology, all anchored in her doctoral background. Her presence elevated my entire learning process.

This training empowers the numerologist not only as an analyst but as a responsible and conscious counsellor. I strongly support its international recognition.

Sincerely,

Loredana Bostaca
