

Gatineau, January 11, 2020

Hello

The Association **Diabète Outaouais Inc.** is organizing a car rally for the 10th year in a row. This **Super Rally** is the main fundraiser for the association. **Under the honorary presidency of Mr. Jocelyn Blondin, Municipal councillor City of Gatineau – Manoir-des-Trembles – Val-T/treau-district.** The edition will be held in Gatineau on **June 7, 2020.** As with the previous ninth years, this year's Super Rally promises to put the fun in fundraiser.

There are many ways you can contribute to this most important fundraiser of the year:

1. Be one of our sponsors. See the attached sponsor sheet for the different categories of sponsorship available.
2. You can register a car and participate in the rally as a contestant. You might even win this friendly competition or one of the many door prizes. The cost per car is \$100 with 2 participants per vehicle (\$50 per person) and it includes the supper (served by a caterer).
3. You can donate a door prize that will be handed out during the supper ceremony.
4. You can come to the catered supper if you do not have the time to participate in the rally. The cost is only 40\$ per person. Everyone at the supper is eligible to win one of the many door prizes.

Thanks to the generosity of the participants and the many sponsors in the past ninth years, we have been able to meet the many needs of people suffering from diabetes by providing information, contacts, conferences and more. Diabetes is a misunderstood condition and the Association Diabète Outaouais Inc. provides an important service to the community by guiding diabetics towards the proper resources and ensuring they have the knowledge required to live to the fullest, despite their condition. The money raised every year also enables us to send many young diabetics to a vacation camp that caters to the specific needs of diabetics.

For the 10th year in a row, this important annual fundraiser will help us continue serving all diabetics in the Outaouais region. **Providing Information, Guidance and Prevention is our mission.** Your help goes a long way in ensuring we continue that mission.

In Quebec, 880,000 people have diabetes but 250 000 people don't even know it yet. By 2025, almost 2 million Quebecois will be impacted by diabetes.
