CEEB Code: 473727

4700 NW 89 Blvd  
Gainesville, FL 32606

## Elementary School Information

### Mission Statement

Established in 2024, the Frazer School is a home for all students of curiosity and academic passion—and a place with no academic ceilings to hold them back. Here, each student finds at least one academic passion to compete in. Some of our values include:

#### Teamwork

Our students collaborate closely in team-based competitions. This incubates a sense of joy and community as well as the interpersonal communication skills necessary to succeed beyond the halls of our school.

#### Community

Our students share a spirit for learning, which allows them to connect and forge strong bonds. This sense of belonging is further broadened by a heavy emphasis on in-person competitions and road trips across the country, which allows them to bond with like-minded individuals outside of Gainesville as well.

### Accessibility and Tuition

Each student pays only \$3500-\$4500 to attend the Frazer School (the state of Florida provides an additional \$8000 voucher for each student). Most find this cost affordable, but we actively raise funds to help sponsor any student who would thrive at our school but does not necessarily have the means to pay. Again, we believe no student should be denied this opportunity for purely monetary reasons.

### Competitive Academics

We offer advanced, rigorous instruction in every classroom, creating an environment where motivated students thrive.

#### Math

- Collaborative Problem solving from Build a Thinking Classroom
- Beast Academy curriculum with placement tests at the beginning of the year and online support at home
- Art of Problem Solving (AoPS) curriculum

#### Science

- STEM focused projects that encourage problem solving
- Students engage in hands-on investigations that build real scientific thinking, not just memorization
- Incorporating HMH and Beast Academy curriculums

#### English and Language Arts

- Amplify Curriculum based on The Science of Reading
- Extensive writing lessons and support
- Systematic instruction in the core areas like phonemic awareness, phonics, fluency, vocabulary, and comprehension

#### Social Studies

- Cross-curricular connections reinforce comprehension and support rigorous thinking
- Students engage in map skills, timelines, and cause-and-effect reasoning
