

Hi! My name is Teddy. I would like to tell you the story of my life. Wait! Stop Everything! You are probably wondering what I am.... I am a dog!

You are also probably wondering how I typed this. Well, my pet human has a translator that he attached to my collar so I could tell him what to write.

It all started March 9, 2024. I was born in Crestline Ohio at 1am. My dog mom was Angie Elliott and my dog dad was Denver Elliott. Mr. And Mrs. Elliott were their human parents. I had 8 siblings and I was the 2nd pup born. I was named Buster Brown.

Then one day, an unusual day. The Elliott's took my in the car without any of my siblings. We drove for a very long time, and I wondered what we were doing. They drove to a big building they said was called Walmart. While looking out the window a saw a group of people get out of the car next to us. We got out too. The Elliot's clicked on my leash, and handed it to the new people. I was very scared! The new people were a man and a lady and two boys (which were my new brothers). They were very excited to meet me. We got in their car and drove away.

They gave me a new name on the way home - Teddy. They held me in the car and sang songs to me. I really missed my kennel and my siblings. I felt very nervous.

When we arrived at my new house it was VERY HOT. I was not used to the summer weather in the southeast. The first few weeks I slept a lot and tried to get used to my new yard, new house and new family. It was really hard. But, after a month or so I got used to everything and I was not sad any more.

The rest of the summer I was happy! I played in my back yard with my mom and brothers. The backyard was huge! I went on lots of walks too. I got to meet other kids and dogs.

The one thing I did not like was THE SWIMMING POOL. It is very scary. It is wet and deep and I cannot touch the ground.

In the fall the boys went back to school. I missed them so much.

I did like riding in the car to drop them off and pick them up!

There was so much to bark at. I liked the cool weather in the fall.

I got to meet some of our human family and dog family too.

My mom took me for my first hair cut. I HATED IT. I was very afraid waiting in the cage. But don't worry, she found me a new groomer who comes to my house in a van. I still don't like it very much.

Then, some weird stuff started to happen. The weather got cold and my family brought a big tree inside. They called it a Christmas tree and put lights and toys in it. I was not allowed to pee on it.

One winter morning we woke up and there was snow outside! I had no idea what snow was so I went outside in the backyard to investigate with my brothers. It was cold and wet. I tried to eat some and it melted in my mouth.

The winter ended and spring came. I had my first birthday! I got a big dog haircut and a dog ice cream treat. I went on a lot of walks with my mom and dog friends. The best part of spring was when school ended and my brothers were home to play!

This summer was the best times of my life so far. We had so much fun. I went camping with my family. I rode a boat at the campground. I played in the yard and in the forest. I got to swim in the creek.

This fall my brothers did not go back to school. They have school at home and I get to be them all day. They spend a lot of

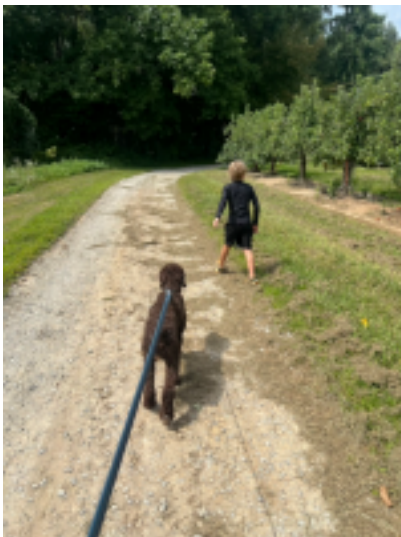

time with books.

We still have time for adventures. We went to an apple orchard.

We went camping in a tent. We even went to the beach. That was so fun!

This is the story of my life so far. I can't wait to see what happens next!
