

KRUZ HEAVY-DUTY LOG TRAILER

BUILT STRONG. BUILT TO LAST.

STRONGER. TOUGHER. SMARTER.

Unitized high-tensile steel beams deliver a lightweight straight-frame trailer built to haul tree-length logs, load after load.

SLIDING / REMOVABLE BOLSTERS
(5) sliding bolsters, (3) grapple guards and a drag bar.

REMOVABLE FRONT GATE
Heavy front gate and push bumper protect the load.

SIX 4" MOVABLE WINCHES
Lock down any load, fast and secure, anywhere on the deck.

HOT-DIP GALVANIZED FRAME
Standard galvanizing fights gravel and de-icer wear.

SPECIFICATIONS

Beams	Unitized, high-tensile steel for a light frame without sacrificing capacity
Frame Design	Straight-frame, built for tree-length logs
Mainframe	25" fabricated main beams, full-depth crossmembers, reinforced webbing
Bolsters	(5) sliding / removable
