

# VOLCANOES

Week  
5

**Monday:** Introducing Volcanoes!! Watch our short animation about volcanoes or check out volcanoes on BBC Bitesize.

**Tuesday:** Sport challenge- How many star jumps can you do before your legs are too tired? Ready, Steady, GO!

**Wednesday:** Science time!! Learn and explore how to create your own Volcano. Follow the instructions sent and see how much your own volcano will explode. Have Fun!!

**Thursday:** Get creative. You can either design and make your own Volcano or use our cut out version. We thought it may be fun to make some dinosaur figures and role play/make up stories with your dinosaurs and volcanoes.

**Friday:** It's time to celebrate Chinese New Year. You could colour and put together your own Chinese lantern or just simply enjoy our 'Year of the Ox' colouring sheet. Maybe you could have noodles for lunch too.
