*Pure french Elegance*

**LA TOULOUSAINNE**

**A SOLUTION**  
TO ALL  
YOUR  
NEEDS!

# THE RIGHT CHOICE IN TOTAL CONFIDENCE...

## LA TOULOUSAINE, 60 YEARS OF CONSUMER CONFIDENCE!!!

Over the past six decades, La Toulousaine has developed extensive expertise in designing reliable products of the highest quality.

Our experts and industrial facilities are located at our Toulouse site. Our frequently patented accessories are extensively trialed at our test center. Three hundred technicians, designers, operators and customer service personnel are working together to better respond to your needs: every situation has a solution!

Thanks to our sixty years of experience, we have established the largest network of recommended professionals in France. A premium product also requires high-quality installation.

Having installed over one million products in Europe, French manufacturer La Toulousaine is without doubt the industry benchmark for high-end products.

family's safety

## PATENTED EXPERTISE

### MECA'CLAV® ASSEMBLY SYSTEM

Designed to last and custom-made, LA TOULOUSAINNE solutions benefit from MECA'CLAV® technology, ensuring the total rigidity of the frame without altering product design.

#### RESISTANCE

Our innovative and patented assembly system ensures our products stand the test of time.

#### STRENGTH AND FINESSE

Made up of multi-chamber sections, our MÉCA'CLAV® system provides our gates with exceptional resistance while offering some of the sleekest models on the market.

## POWDER COATING OPT FOR THE HIGHEST QUALITY!

### PERFECT FINISHES

Once assembled, we lacquer our gates on our automated production line, thus guaranteeing the highest quality.

Having complete control over our treatment and powder coating processes makes it possible to achieve an even finish in a wide variety of colors and textures.

Confident in the quality of our products, our paints come with a 10-year warranty<sup>(1)</sup>.

### LACQUERING

**La Toulousaine has chosen AkzoNobel Powder Coatings**, world leader in powder coatings. **All our selected powder coatings** meet the leading standards of **Qualicoat Class 2, GSB and AAMA 2604** and have been developed with over 30 years of experience.

The original Interpon collections decorate prestigious monuments all over the world such as the Shard in London or the First Tower in Paris.

### A CONTROLLED PROCESS

By combining **high-quality aluminum alloys, reinforced chemical surface treatment** and a **powder coating process**, we meet the requirements of the **Qualimarine** and **Qualicoat Seaside<sup>(2)</sup>** quality labels.

(1) Find out more about our warranties at [www.la-toulousaine.com](http://www.la-toulousaine.com)

(2) To find out more about our lacquering processes, go to [www.la-toulousaine.com](http://www.la-toulousaine.com)

# BE BOLD WITH COLOR, CUSTOMIZE!

High-quality  
Class 2  
lacquer

## A WIDE RANGE OF COLORS AND TEXTURES

Your gate is the first part of your home that people see, so it should be exceptional.

This is why La Toulousaine only uses paints that have been certified according to Qualicoat Class 2, GSB Master and AAMA 2604 standards.

Made of Interpon D2525 High Durability polyester, they have excellent UV resistance and meet the most stringent requirements.

### • The Structura Collection

The Structura D2525 Collection offers RAL colors with a textured finish that are highly resistant to wear, scratches and shocks.

### • The Futura Collection

The Futura Collection, designed in collaboration with International Style Agency PeclersParis, combines color and light with metallic effects which are enhanced with a sandblasted appearance.

The beauty of its stylish colors, combined with excellent qualities, make it the go-to range for architects.

Let your imagination run wild and customize your gates, wicket doors and fences.

## STANDARD

- Structura: 16 matte finish, lightly textured shades

up to 110°

IM 5000  
Inter-wall installation  
up to 110°

IM 5000  
Wall-mounted  
installation up to 180°

## SLOPED OPENING

Having developed connection strip-mounted installation and slope adjustment techniques in its factory, La Toulousaine ensures high-performance operation in locations that were previously considered complex (for manual gates only).

Top hinge

Bottom hinge

### SLIDING GATE WITHOUT GROUND-LEVEL RAIL

- Self-supported gate
- Solution for snowy areas or dead leaf build up
- Reduces works required and installation time

### SLIDING 2-LEAF GATE

- Ideal for wide access entrances
- Meets specific needs related to reduced reservations
- Partial opening allowing pedestrian or cyclist access

### SLIDING GATE FENCE ON WALL

- Ideal for small spaces
- U-section lacquered in same color as gate
- Suitable for any height

### INTEGRATED METER OR LETTER BOX

- Closure unit for letter boxes
- Letter box lacquered in same color as fence

### ALUMINUM POST

- With or without sealing
- Lacquered in same color as gate
- Concealed ground fixations
- Optional LED lighting

### CABLE HOLDER

- Eliminates need for floor channel
- Enables flawless installation
- Compensates for slightly uneven levels
- Can withstand passage of all vehicle types

### OPTIMIZED HEIGHT

# INNOVATIONS & CUSTOMIZATION

**After years of research and development, La Toulousaine is skilled in industrializing products with craftsman-like expertise, making every gate unique. You create the design, we make it happen!**

## TRULY CUSTOM-MADE PRODUCTS

- Our unique technology enables you to bring your wildest ideas to life. Do you want to get a message across or highlight one of your passions? Use your gate as a medium for communication!

*High-definition photo or logo to be provided by you*

## HIGH-QUALITY MATERIALS!

- Wood is making a comeback. It offers a homely feel and goes well with aluminum. Extremely popular with architecture lovers, Aluminum and Wood is always a winning combination.

Noyer wood

Aged pine

## ADD COLOR TO YOUR LIFE

- Our Intuition, Arpeggio and Melody lines allow you to combine several shades. Whether you opt for similar shades or go for contrast, the two-color option is available to you.

## DECORATIVE GLASS

- Our Arpeggio and Melody lines enable you to integrate decorative glass designs. Whether you choose simple frosted glass or a digital printed design, you can add a touch of class and modernity to your gate.

## FOCUS ON... SHEET METAL GATES

***"All our sheet metal products are made from solid sheet metal that we perforate according to gate size. This unique process ensures the pattern is correctly sized, guaranteeing perfect symmetry and an infill that fits perfectly within the frame.***

***This ensures that the holes or grooves never overlap the frame.***

***And ultimately, it's perfectly simple, every gate that we produce is unique!"***

# LIVE IN HARMONY!

We also manufacture and design aluminum gates and roller shutters.  
We offer a range of coordinated sets of gates, garage doors and roller shutters.  
So you can experiment with colors and lines, or try out patterns or windows.

# ACCESSORIES

## PHONE OPERATION

**Digital technology for your home comfort: control, open and close your LA TOULOUSAINNE products with your phone or smartphone. Our products are compatible with the following home automation systems: IO by SOMFY, TYDOM by Deltadore and Calyps'home.**

**You no longer need to give out your entry codes or remote controls.**

- Software for opening and controlling access by phone via your ADSL box
- Works without communication fees and with all types of phones, no subscription necessary
- Completely secure
- "Wireless" device
- Compatible with any operator and broadband ADSL connection
- Your family and friends can come and go as they please.

## AUDIO AND VIDEO DOOR PHONES

**With our audio and video solutions, you can identify visitors and secure your home.**

# TIPS ON MEASURING DIMENSIONS

## DIMENSIONS TO BE TAKEN BETWEEN POSTS AND UNDER CAP

### A few examples

- Start measuring the dimensions from point 0, i.e. at the highest point of the threshold

#### Ideally:

- threshold is level
- posts are vertical

#### Example 3:

- threshold is level
- 1 post is vertical and 1 post is leaning

#### Example 1:

- sloping threshold
- posts are vertical

#### Example 4:

- threshold is level
- posts are leaning outwards

#### Example 2:

- threshold is uneven
- posts are vertical

#### Example 5:

- threshold is level
- posts are leaning inwards

# GATE AND FENCE ALIGNMENT

## Basic example

- Start measuring the dimensions from point 0, i.e. at the highest point of the threshold.

**Scenario** A gate with several fence panels on one side only. The wall is straight and even, the posts are vertical.

**Problem** You want to align the transoms between the gate and fences.

**Solution** The height of the intermediate gate transom will be determined by the bottom fence transom (so this height depends on the height of the fence wall). The height of the top fence transom (and therefore the height of the fence) is determined by the height of the top gate transom.

If there is too great a height difference between the gate and the fence wall, a builder will need to change the level of the fence wall before any dimensions are taken.

### In all situations

- The same rules for the "basic example" apply in all cases.
- The height of the intermediate gate transom must be aligned with the nearest fence panel.

## EXAMPLE OF A SLOPING FENCE WALL

### Upward slope

The height of the bottom fence transom must be adjusted in line with the highest point of the fence wall, in this case, on the right end.

### Downward slope

The height of the bottom fence transom must be adjusted in line with the highest point of the fence wall, in this case, on the left.

*The right choice in total confidence...*
