

## ALIGATES – HERITAGE RANGE

Welcome to the new Aligates HERITAGE RANGE of Fully Boarded gates, these are based on 100mm tongue and groove boards in a vertical design, with or without horizontal crossrails. The curved top designs available are: arch top, swan-neck, reverse-arch and reverse swan-neck variants.

Also available with matching pedestrian gates (flat top) and fencing. Tracked sliding gates and cantilever gates are available in the flat top designs with curved tops models available from November 2023.

All models are available with or without a horizontal crossrail. For swing gates this is advantageous if there is existing RAM automation on site, the crossrail can be placed anywhere in the gate to line up with the existing automation meaning no alterations to the fixing brackets are required.

## ALIGATES – HERITAGE RANGE – OPEN TOP SWING GATES

The Heritage Open Top versions are available with flat, straight sloping and curved tops. The curved top designs available are: arch top, swan-neck, reverse-arch and reverse swan-neck variants.

The top open planks are available in vertical configuration in 38mm, 65mm or 100mm. Lower planks can be 100mm or 150mm vertical, horizontal, or diagonal layout. The open top section can be set at any height. The standard crossrail heights are 1/3<sup>rd</sup> up, central, and 1/3<sup>rd</sup> down.

### FULLY BOARDED

1. FLAT TOP
2. SWAN NECK
3. REVERSE SWAN-NECK
4. SLOPED TOP
5. REVERSE SLOPE
6. ARCH TOP
7. REVERSE ARCH

### FULLY BOARDED - CROSSRAIL

1. FLAT TOP
2. SWAN NECK
3. REVERSE SWAN-NECK
4. SLOPED TOP
5. REVERSE SLOPE
6. ARCH TOP
7. REVERSE ARCH

### OPEN TOP 1/3<sup>RD</sup>

1. FLAT TOP
2. SWAN-NECK
3. REVERSE SWAN
4. SLOPED TOP
5. REVERSE SLOPE
6. ARCH TOP
7. REVERSE ARCH

### OPEN TOP 1/2

1. FLAT TOP
2. SWAN-NECK
3. REVERSE SWAN
4. SLOPED TOP
5. REVERSE SLOPE
6. ARCH TOP
7. REVERSE ARCH
