RESEARCH & DEVELOPMENT WING – SM GROUP OF COMPANIES

Dear College Management,

Dated: 14.10.2024

Happy to serve this letter.

ENGINEERING EXCELLENCE PROGRAM SMTS-EEP_2024/NV tailored specifically for our core engineering College students of 1st to 4th year. This initiative aims to enhance their technical skills, promote innovation, and prepare them for successful careers in the engineering field.

We like to change the Engineering students' landscape from the very step of their college levelling itself. So, we designed EEP_2024/NV Program. Here Student will learn about the Industrial requirement and Industrial Norms which required to become a professional Design Engineer or professional Production Engineer or professional Quality Engineer. And in Other hand, self-employment / Entrepreneurship as Career.

We have established an **Engineering Research & Development Lab for Students** to learn and experience world class advanced Technology in Namakkal. We like to sign a MoU with your esteemed Institution to deliver EEP_2024/NV Program to students of Class 1st to 4th year of Engineering.

Student will receive,

1. Industrial Certification & Recommendation Letter.
2. Thinkle Hub & GrowUp Membership.
3. Lifetime Edu Support.
