

Open Workspace Area

Dashes of light infuse a vibrant energy into this open workspace. Linear coves bring attention to the beautiful wooden walls, creating an inspirational nook in the office.

Historical Display

Warm, focused lighting helps draw attention to the curated display of historical medical items. The warmer color temperature and higher intensity help delineate this attraction.

Investor Area

Sleek, modern lines help delineate this space, creating a strong visual impression to create a sophisticated “scanning” effect.

Reception Area

With this bold first impression, it sets the tone for employees and guests alike; that this is an innovative and future focused company.

Lab/Research Area

Bright, functional lighting brings precision to this laboratory space. With bright work surfaces and high CRI output, this company's researchers are ready to create the technology of the future.

Breakout Rooms

Diffuse, casual lighting brings a sense of relaxation and calm to these breakout spaces. Perfect for brainstorming and idea-making, these rooms offer a respite from the intensity of the Lab.

Street View - Nighttime

Vertical scrapes along the exterior walls create a warm and welcoming atmosphere from the street. The large entryway windows offer a glance at the innovative and contemporary style inside the building.

Special Event - Investor Area

After the sun sets, this space transforms from bright and functional into a sleek, modern hub for events to entice potential investors. Leaning more into the uplights, the investor area glows blue from below, illuminating the drop ceiling above.

Special Event - Reception Area

During investor events, the reception area downlights dim, allowing the brilliant blue uplight to shine through. This adjustment also allows the historical display to take prominence, drawing the eye to the wall.
