

Power of the Past

GospelandGasEngines.com

Here at Flywheel Supply, we believe it is important to teach people. We love to teach. We have trained our workers to become a team of skilled employees in a few short years. We are looking to the future; we know we need to keep this going. We need to teach and educate those around us, both young and old, men and women, of the times of this life. That is why we started Power of the Past: Gospel and Gas Engines. This is an INCREDIBLY unique opportunity for people from this area and all around the country to come to our little corner of Iowa and learn about manufacturing, antique power, farming days gone by and most importantly, the Love of Jesus.

Our first year, 2020, in the middle of the craziest year ever, we had a very well attended show, we had 3 days of fun and learning and hosted people here from 14 states. This year looks to be even bigger and better! We have stepped up the advertising to cover more area and more people. We are once again hosting our engine building class during the show. Please check out the accompanying show fliers and distribute them to anyone that may be interested in attending this year's show. See the website for full details.

The best part is, we are hosting TWO evenings of great Gospel Music! Three of the best names in gospel music are set to take our stage for two unforgettable evenings. That's where you come in. We are looking for sponsors. The total cost of the entertainment is \$30,000. This is an excellent form of advertising and giving back to a great market segment. See our tier levels below.

This is a totally FREE event open to the public therefore sponsors are important!!

Partner - \$1,500+
