

Fundable WEA Entrepreneurial Program

Fast & Easy Access To Business Funding

WHO SHOULD PARTICIPATE?

Entrepreneurs looking for business funding have only two options:

Buy: Acquire an established business that is ready to apply for funding.

Build: Create a business with fundability elements.

Developed with the input of former business bankers, SBDC/SBA Advisors and/or SCORE Mentors, a Fundable Shelf Corporation is the fastest and easiest option for funding in just a few days. Alternatively, we can also help you "build" a fundable business in just twenty eight days.

LEGAL. AFFORDABLE. FAST. GUARANTEED.

We can legally and rapidly assist you in "Buying" or "Building" a fundable business to access \$100,000 to \$5,000,000 of business funding. We guarantee you at least \$100,000 in thirty days.

Our 501 (c)(3) nonprofit has connected with a corporation to assist entrepreneurs in creating a fundable business in less than a month using a proven, legal, and reliable process broken down in four weekly steps.

The Fundable WEA Entrepreneurial Program provides an affordable and effective solution for entrepreneurs who are looking for a turn-key business ready to apply for business loans within days of enrollment.

Rather than "building" a fundable business, a Fundable Shelf Corporation already has the key fundability factors as outlined to the right.

Once you enroll, we'll need about one week to fulfill your order allowing us to assist you in applying for business funding immediately thereafter.

Your new business will have \$100,000 legally posted on your Balance Sheet creating collateral and liquidity for your new start-up business! We can then assist you in liquidating the A/R to put cash in your hands.
