LAW ENFORCEMENT D.R.A.W. SCHOOL FIREARMS TRAINING

Law enforcement officers across the country are facing increasingly violent, faster threats and must have a higher level of mastery when using their handgun and/or patrol rifle. Yet, due to manpower levels, scheduling, range availability, ammunition shortages, budget cuts and other issues, many departments struggle to regularly train their officers **past the minimum levels** required by state standards. To address these concerns and provide agencies with the ability to train their officers to a higher level of proficiency, speed and accuracy on a continual basis, a nationally standardized firearms training curriculum called **D.R.A.W. School** was developed in 2014. The acronym “D.R.A.W.” stands for **Developing Rapid Ability with Weapons**.

These expertly designed law enforcement firearms training and instructor development curriculums meet and/or exceed all state and federal law enforcement firearms training requirements for all 50 states. D.R.A.W. School firearms training curriculums are designed to complement each state’s training requirements and can be **easily integrated into any agency’s training program for consistent training results**. D.R.A.W. School is a nationally recognized firearms training and instructor development curriculum and is POST-certified in various states. It is also SCCJA-approved for full FIS and PRI instructor equivalency in South Carolina. D.R.A.W. School has been taught to instructors in over 40 states and is widely recognized as the most up-to-date law enforcement firearms training program available today.

The introduction of the **D.R.A.W. School Online Training System**, an LMS-based, self-paced online firearms training course, changed the game when it comes to how departments conduct regular firearms training. The Online Training System helps officers to stay consistent and ready with twenty-three different 10–15-minute training segments that cover all aspects of the five core competencies of the D.R.A.W. School training curriculum in an in-depth manner. Combined with mandated departmental in-person firearms training, agencies have found that having their officers enrolled in regular online firearms training with realistic dry-fire drills greatly increases confidence, speed, accuracy, and this results in higher qualification scores.

D.R.A.W. School Firearms Training and the Advanced Instructor Training courses have been praised by departments, officers, and firearms instructors from coast-to-coast. **The methods taught have been directly credited to saving the lives of officers involved in OIS situations**. D.R.A.W. School and its founders have been featured in multiple police periodicals, such as Police Magazine and Law Enforcement Technology, and have been invited to speak to many police professional associations.

D.R.A.W. SCHOOL ADVANCED FIREARMS INSTRUCTOR TRAINING

The **D.R.A.W. School Advanced Handgun Instructor Training** course is a 5-day, 46-hour advanced instructor development and certification course designed to provide law enforcement instructors with the basic and advanced shooting skills, instructional ability, training, and knowledge required to teach basic and advanced shooting and handgun skills to their officers. The curriculum is designed to teach instructors how to effectively train officers to increase their speed, accuracy and focus when shooting. This is a highly dynamic course that focuses on real-world application of the skills learned. This hybrid course combines an online pre-requisite training course (6-hours), which all instructor candidates must complete prior to class.

The **D.R.A.W. School Advanced Patrol Rifle Instructor Training** course is a 3-day, 30-hour advanced instructor development and certification course. It provides instructors with an enhanced ability to train officers both basic and advanced skills to master the complexity of their patrol rifle, even in the most demanding or hostile environments. With many departments now utilizing patrol rifles, instructors must be

able to train their officers in a highly efficient manner without compromising instructional quality. This is a highly dynamic course with almost all instructional time devoted to practical and live-fire exercises. This course takes patrol rifle training and instructor development well past recognized minimum state and federal standards.

PREREQUISITE: All instructor candidates attending either course above must complete the 6-hour online handgun training prerequisite training course. Candidates may attend these courses prior to obtaining their Basic Instructor Development (BID) or their Specialized Skills Instructor (SSI) certification. However, those candidates must attend either BID or SSI within 12-months of completing the courses. The original D.R.A.W. School issued certification date will be the anniversary renewal date with the SCCJA.

“My bottom line is that I walked in as a skeptic, but I walked out a believer. If you have an opportunity to train in the D.R.A.W School method, do what you have to do to make that happen! Of all the schools and training I have undertaken in the last 25 years, these five days of D.R.A.W. School have been the best and most productive of the lot.”

- SO R. Bemis, U.S. Federal Firearms Instructor (Alabama)

The D.R.A.W. School instructor development curriculums are hybrid instructional courses that are designed to maximize training time, while ensuring that each skillset is learned, retained, and applied by instructor candidates. In doing so, the goal is to help instructor candidates to **effectively and consistently duplicate the training process** so that officers become high proficient with their weapons. Each segment of the curriculum starts with an academic study of the subject where instructor candidates learn the true science behind the methodology. Each step in the training process answers the “why” behind the method. Next, instructor candidates are immersed in a series of specifically designed practical exercises that help them correctly perform each physical and mental function in the proper brain/body sequence. This portion of instruction is performed in the classroom and on the range utilizing a special designed “stairstep” training methodology. As each step is mastered, the speed is increased, and fast, dynamic movement is added. Once the practical exercises are mastered, instructor candidates then perform the same skills in a live-fire environment on the range. At the end of the course, instructor candidates will shoot a 50-round qualification course for each of the instructor development courses. These qualifications include many of the skills they learned and practiced during the course. Please see the **Daily Course Schedules** on pages 11 and 12 for a detailed list of course activities by day and time.

“D.R.A.W. School opened my eyes to how outdated the training I received and continue to teach really is! I quickly recognized how impractical many of the ‘traditional’ training techniques in law enforcement really are.”

- Sr. DPO K. Chao, San Mateo Co. Probation Dept. (CA)

WHO MAY ATTEND THE COURSES?

The D.R.A.W. School Instructor Training courses are strictly for sworn law enforcement personnel only. Each applicant’s employment and position will be verified to maintain strict attendance requirements. Candidates without BID or SSI certification may attend, however they must obtain their BID or SSI certification within 12 months of course completion for certification to be valid. The following individuals may apply to attend either course:

"In my 14 years in law enforcement and 4 years in the Marine Corps, I have never been more impressed and constantly engaged in a firearms training course. The realism, practicality and top-notch instruction far exceeded my expectations! "

- Sgt. W. Ferrelli, Bluffton Police Department (SC)

- Ofc. W. Pickett, Santa Paula Police Dept. (CA)

INSTRUCTOR CANDIDATE DRESS CODE

Instructor candidates should wear comfortable clothing that is conducive for a physically demanding firearms training environment. It is highly recommended that instructor candidates wear the following:

- **Tactical pants with cargo pockets that can hold ammunition**
- **Tactical shirts, sun shirts or long sleeve shirts conducive for weather**
- Avoid wearing black or dark colored clothing in warmer months

Clothing will become dirty throughout various parts of the course and during range training exercises, so we do not recommend wearing clothes that instructor candidates do not wish to get dirty or possibly damaged. **Do not wear jeans to class, as they are not allowed.**

The range facility is outside, so **please be sure to bring appropriate clothing that will keep you comfortable while still allowing for physical activity.** Layer clothing appropriately based on the forecast. Some range activities will be for an extended time. If you plan to wear short-sleeved shirts on the range, we recommend that you apply sunscreen before going outside or wear a lightweight sun shirt. It is highly recommended that you bring a lightweight water-repellent jacket in case of rain during the range exercises. Comfortable, supportive footwear is highly recommended for all segments of the course as you will be on your feet for extended periods. **Instructor candidates should bring and wear their body armor throughout the course to properly simulate their entire duty uniform ensemble during all training exercises. Body armor is required to be worn on the range during all live-fire exercises.**

"I have learned so much and retained more due to the D.R.A.W. method. This has definitely been the most challenging, yet satisfying, firearms course I have been part of in my six years of military and ten years of law enforcement experience."

- Dep. J. Byrne, Baldwin County Sheriff's Office (AL)

PHYSICAL FITNESS & HYDRATION

state those on the application and in-class registration forms. However, this does NOT disqualify an applicant from attending.
