LAW ENFORCEMENT D.R.A.W. SCHOOL FIREARMS TRAINING

Law enforcement officers across the country are facing increasingly violent, faster threats and must have a higher level of mastery when using their handgun and/or patrol rifle. Yet, due to manpower levels, scheduling, range availability, budget cuts and other issues, many departments struggle to regularly train their officers **past the minimum standards** required by the state. To address these concerns and provide agencies with the ability to train their officers to a higher level of proficiency, speed and accuracy on a continual basis, a nationally standardized firearms training curriculum called **D.R.A.W. School** was developed in 2014. The acronym "D.R.A.W." stands for **Developing Rapid Ability with Weapons.**

These expertly designed law enforcement firearms training and instructor development curriculums meet and/or exceed all state and federal law enforcement firearms training requirements for all 50 states. D.R.A.W. School firearms training curriculums are designed to complement each state's training requirements and can be **easily integrated into any agency's training program for consistent performance and results.** D.R.A.W. School is a nationally recognized firearms training and instructor development curriculum and is POST-certified in various states. It is also carries full state equivalency in South Carolina and Georgia. D.R.A.W. School is widely recognized as the most up-to-date law enforcement firearms training program available today.

OFFICER
THE LEADER IN PRODUCTS, TECHNOLOGY AND INNOVATION

"D.R.A.W. School was years ahead of its time, functioning as a forward-thinking pioneer in firearms instruction and applying training concepts that much of the profession is only now beginning to examine seriously".

–Officer.com, October 2026

The introduction of the **D.R.A.W. School Online Training System**, an LMS-based, self-paced online firearms training course, changes the game when it comes to how departments conduct regular firearms training. The Online Training System helps officers to stay consistent and ready with twenty-three different 10–15-minute training segments that cover all aspects of the five core competencies of the D.R.A.W. School training curriculum. Combined with mandated departmental in-person firearms training, agencies have found that having their officers enrolled in regular online firearms training with realistic and safe dry-fire drills greatly increases confidence, speed, accuracy, and this results in higher qualification scores.

The D.R.A.W. School Firearms Training and the Advanced Instructor Training courses have been praised by departments, officers, and firearms instructors from coast-to-coast. **The methods taught have been directly credited to saving the lives of officers involved in OIS incidents.** D.R.A.W. School and its founders have been featured in multiple police periodicals, such as Police Magazine, Law Enforcement Technology, Officer.com, and have been invited to speak to many professional police associations.

D.R.A.W. SCHOOL ADVANCED FIREARMS INSTRUCTOR TRAINING

The D.R.A.W. School **Advanced Handgun Instructor** course is a 5-day, 46-hour advanced instructor development and certification course designed to provide law enforcement instructors and officers with the basic and advanced shooting skills, instructional ability, training, and knowledge required to teach basic and advanced handgun shooting and handling techniques to their officers. The curriculum is designed to teach instructors how to effectively train officers to increase their speed, accuracy and focus when shooting. This is a highly dynamic course that focuses on real-world application of the skills learned. This hybrid course combines an online pre-requisite training course (6-hours), with intense practical exercises and instructional training.

The **D.R.A.W. School Advanced Patrol Rifle Instructor Training** course is a 4-day, 32-hour advanced instructor development and certification course. It provides instructors and officers with an enhanced ability to learn both basic and advanced skills to master the complexity of their patrol rifle, even in the most demanding or hostile environments. With agencies and departments implementing patrol rifles more and more, instructors must be able to train their officers in a very efficient manner without compromising instructional quality. This is a highly dynamic course with almost all instructional time devoted to practical and live-fire exercises. This course takes patrol rifle training and instructor development well past recognized minimum state and federal training standards.

PREREQUISITE: All instructor candidates attending either course must complete the 6-hour online training prerequisite training course.

D.R.A.W. SCHOOL INSTRUCTOR HIGHLIGHT

"My bottom line is that I walked in as a skeptic, but I walked out a believer. If you have an opportunity to train in the D.R.A.W School method, do what you have to do to make that happen! Of all the schools and training I have undertaken in the last 25 years, D.R.A.W. School has been the best and most productive of the lot."

- SO R. Bemis, U.S. Federal Firearms Instructor (AL)

FOCUSING ON INSTRUCTOR DEVELOPMENT

The D.R.A.W. School instructor development curriculums are hybrid instructional courses that are designed to maximize training time, while ensuring that each skillset is learned, retained, and applied by instructor candidates. In doing so, the goal is to help instructor candidates to **effectively and consistently duplicate the training process** so that officers become highly proficient with their weapons. Each segment of the curriculum starts with an academic study of the subject where instructor candidates learn the true science behind the techniques.

Each step in the training process answers the "why" behind the method or process. Next, instructor candidates are immersed in a series of specifically designed practical exercises that help them correctly perform each physical and mental function with the proper brain/body sequence. This safe, dry-fire training is performed utilizing the BarrelBlok safety device along with a specially designed "stairstep" training methodology. As each step is mastered, the speed is increased, and fast, dynamic movement is added.

Once the practical exercises are mastered, instructor candidates then perform the same skills in a live-fire environment on the range. At the end of each course, instructor candidates will shoot a 50-round qualification. These qualifications include many of the skills they learned and practiced during the course.

D.R.A.W. SCHOOL INSTRUCTOR HIGHLIGHT

"D.R.A.W. School opened my eyes to how outdated the training I received and continued to teach really is! I quickly recognized how impractical many of the 'traditional' training techniques in law enforcement really are. "

- Sr. DPO K. Chao, San Mateo Co. Probation Dept. (CA)
