D.R.A.W. SCHOOL ADVANCED FIREARMS INSTRUCTOR TRAINING

The **D.R.A.W. School Advanced Handgun Instructor Training** course is a 5-day, 46-hour advanced instructor development and certification course designed to provide law enforcement instructors with the basic and advanced shooting skills, instructional ability, training, and knowledge required to teach basic and advanced shooting and handgun skills to their officers. The curriculum is designed to teach instructors how to effectively train officers to increase their speed, accuracy and focus when shooting. This is a highly dynamic course that focuses on real-world application of the skills learned.

The **D.R.A.W. School Advanced Patrol Rifle Instructor Training** course is a 3-day, 36-hour advanced instructor development and certification course. It provides instructors with an enhanced ability to train officers in both basic and advanced skills to master the complexity of their patrol rifle, even in the most demanding or hostile environments. With many departments now utilizing patrol rifles, instructors must be able to train their officers in a highly efficient

manner without compromising instructional quality. This is a highly dynamic course with almost all instructional time devoted to practical and live-fire exercises. This course takes patrol rifle training and instructor development well past recognized minimum state and federal standards.

PREREQUISITE TRAINING: All instructor candidates attending either the **Advanced Handgun Instructor** course or the **Advanced Patrol Rifle Instructor** course must complete the 6-hour online handgun training prerequisite training course. This online course covers in depth scientific information and body mechanics that are not repeated in the classroom portion of the training. All instructor candidates are required to complete the online training before attending in-person training.

“My bottom line is that I walked in as a skeptic, but I walked out a believer. If you have an opportunity to train in the D.R.A.W School method, do what you have to do to make that happen! Of all the schools and training I have undertaken in the last 25 years, these five days of D.R.A.W. School have been the best and most productive of the lot.”

- SO R. Bemis, U.S. Federal Firearms Instructor (Alabama)

The D.R.A.W. School instructor development curriculums are hybrid instructional courses that are designed to maximize training time, while ensuring that each skillset is learned, retained, and applied by instructor candidates. In doing so, the goal is to help instructor candidates to **effectively and consistently duplicate the training process** so that officers become highly proficient with their weapons. Each segment of the curriculum starts with an academic study of the subject where instructor candidates

learn the true science behind the methodology. Each step in the training process answers the “why” behind the method. Next, instructor candidates are immersed in a series of specifically designed practical exercises that help them correctly perform each physical and mental function in the proper brain/body sequence. This portion of instruction is performed in the classroom and on the range utilizing a specially designed “stairstep” training methodology. As each step is mastered, the speed is increased, and fast, dynamic movement is added. Once the practical exercises are mastered, instructor candidates then perform the same skills in a live-fire environment on the range. At the end of the course, instructor candidates will shoot a 50-round qualification course for each of the instructor development courses. These qualifications include many of the skills they learned and practiced during the course. Please see the **Daily Course Schedules** below for a list of course activities by day and time.

“D.R.A.W. School opened my eyes to how outdated the training I received and continue to teach really is! I quickly recognized how impractical many of the ‘traditional’ training techniques in law enforcement really are.”

- Sr. DPO K. Chao, San Mateo Co. Probation Dept. (CA)

INSTRUCTOR CANDIDATE DRESS CODE

Instructor candidates should wear comfortable clothing that is conducive for a physically demanding firearms training environment. It is highly recommended that instructor candidates wear the following:

- **Soft tactical uniforms**- tactical pants and polo shirts

The range facility is outside, so **please be sure to bring appropriate clothing that will keep you comfortable while still allowing for physical activity.** Choose appropriate clothing based on the forecast. Some range activities will be for an extended time. If you plan to wear short-sleeved shirts on the range, we recommend that you apply sunblock before going outside or wear a lightweight sun shirt. Comfortable, supportive footwear is highly recommended for all segments of the course as you will be on your feet for extended periods. **Instructor candidates should bring and wear their body armor throughout the course to properly simulate their entire duty uniform ensemble during all training exercises. Body armor is required to be worn on the range during all live-fire exercises.**

"I have learned so much and retained more due to the D.R.A.W. method. This has definitely been the most challenging, yet satisfying, firearms course I have been part of in my six years of military and ten years of law enforcement experience."

LAW ENFORCEMENT D.R.A.W. SCHOOL FIREARMS TRAINING

Law enforcement officers across the country are facing increasingly violent, fast threats and therefore must have a higher level of mastery when using their firearms. Yet, due to manpower levels, scheduling, range availability, ammunition shortages, budget cuts and other issues, many departments struggle to regularly train their officers **past the minimum standards** required by their state. To address these concerns and provide agencies with the ability to train their officers to a higher level of proficiency, speed and accuracy on a regular basis, a nationally standardized firearms training curriculum called D.R.A.W. School was launched in 2014. The D.R.A.W. acronym stands for **Developing Rapid Ability with Weapons**.

These expertly designed law enforcement firearms training and instructor development courses meet and/or exceed all state and federal law enforcement firearms training standards and requirements in all 50 states. D.R.A.W. School firearms training curriculums are designed to complement each state's training requirements and can be **easily integrated into any agency's training program for consistent training results**. D.R.A.W. School is a nationally recognized firearms training and instructor development program and is POST-certified in various states. It has also been granted full certification equivalency in certain states. It has been taught to instructors in over 40 states and is widely recognized as the most up-to-date law enforcement firearms instructor training program available today.

The introduction of the **D.R.A.W. School Online Training System**, an LMS-based, self-paced online firearms training course, changed the game when it comes to how departments conduct regular firearms training. The Online Training System helps officers to stay consistent and ready with twenty-three different 10–15-minute training segments that cover all aspects of the five core competencies of the D.R.A.W. School training curriculum in an in-depth manner. Combined with mandated departmental in-person firearms training, agencies have found that having their officers enrolled in regular online firearms training with realistic dry-fire drills greatly increases confidence, speed, accuracy, and this results in higher qualification scores.

D.R.A.W. School Firearms Training and the Advanced Firearms Instructor Training courses have been praised by departments, officers, and firearms instructors from coast-to-coast. **The methods taught have been directly credited to saving the lives of officers involved in OIS situations**. D.R.A.W. School and its founders have been featured in multiple police periodicals, such as Police Magazine and Law Enforcement Technology, and have been invited to speak to many professional police associations.
