GENERAL LAMINATE CASE GOOD CONSTRUCTION

All case pieces have full top front, back, and bottom rails. They are manufactured with cleats, corner blocks, screws, dowels, and glue. All exposed solids are kiln-dried select hardwood.

TOP CONSTRUCTION: High-pressure laminate. The substrate is contract-grade particle board core with a density of 45 pounds.

DECORATIVE TRIM: All decorative trims are made of select hardwood.

DRAWER BOX CONSTRUCTION: All drawer sides are constructed of plywood. Drawer bottoms are solid hardboard, grooved, glued, and stapled to drawer front, back, and sides. Drawer box is dovetailed on the front and back. Boxes are finished and sealed to prevent moisture penetration. Drawer slides are side-mounted, ball bearing, and full-extension.

DRAWER FRONTS: Drawer fronts are made of thermally-fused laminate. The core has a density of 45 pounds.

BACK PANELS: Back panels are recessed for cord maintenance and grooved into end panels. They are glued and screwed into place.

HEADBOARD CONSTRUCTION: Headboards are made of thermally-fused laminate over a particle board core with a density of 45 pounds. All headboards are wall-mounted.

WARRANTY: Echoes case goods are warranted for a period of 5 years from date of purchase.
