

AClareCorp Federal Innovation White Paper 2025

Core Systems & Compliance

This document is provided for the purpose of evaluating AClareCorp's readiness for partnership and system integration within federal R&D and compliance ecosystems. It summarizes AClareCorp's validated frameworks, technical platforms, and alignment with major enterprise and government standards.

Federal Partnership & Joint Venture Readiness Statement

AClare, LLC (AClareCorp) is a federally aligned technology company capable of entering joint ventures, subcontracting partnerships, and Cooperative Research and Development Agreements (CRADAs) with U.S. agencies and prime contractors. Our compliance foundation and R&D portfolio have been engineered to meet NASA, DoD, DOE, and SBA interoperability standards, including DFARS, CMMC 2.0, and FedRAMP Moderate/High baselines. AClareCorp systems integrate directly with AWS GovCloud, Microsoft Azure Government, and Google Cloud Platform for secure deployment, telemetry, and analytics. We welcome collaboration with federal and enterprise partners including NASA, Lockheed Martin, Northrop Grumman, Raytheon, Boeing, AWS, Microsoft, and OpenAI, focusing on R&D acceleration, cybersecurity, digital trust certification, and sustainable innovation.

AClare Systems

1. IV. Federal Alignment & R&D Foundations

13. 11. Admin Dashboard (Dark Mode Suite)
14. 12. Next-Gen POS System (Bars & Food Service)
15. 13. Toolbelt to Triumph™ (TTT)
16. 14. Flip the Pitch™ Workshop & Compliance Kit
17. 15. AClare Utility Board (Seat-Based Toll Model)
18. 16. AClare Aero (Aerospace/Telecom R&D)
19. VI. About AClareCorp

IV. Federal Alignment & R&D Foundations

AClareCorp designs all platforms with federal readiness by design. This section maps core compliance frameworks and outlines R&D validation processes used to ensure integrity, security, and interoperability. Each platform is traceable to applicable NIST, FISMA, FedRAMP, HIPAA, FERPA, and OSHA standards, with alignment to DFARS 252.204-7012, CMMC 2.0, and NASA TRL 6–8 readiness levels.

Federal & Enterprise Partnership Alignment

- NASA – Aerospace communications and data telemetry integration via AClare Aero.
- Northrop Grumman – Zero-trust networking and compliance automation for defense-grade systems.
- Lockheed Martin – Secure AI deployment for aerospace telemetry and predictive maintenance.
- Raytheon Technologies – Cyber defense and federated AI testing environments.
- Boeing – Aviation-grade secure communication systems (AeroNet VPN, AClare Aero).
- AWS – Primary cloud infrastructure provider; uses AWS GovCloud, Lambda, EC2, S3 for compliant deployments.
- Microsoft Azure – Hybrid AI and compliance analytics for enterprise and government operations.
- Google Cloud – AI model training, data analytics, and IoT telemetry.
- Snowflake – Secure data warehousing and zero-copy sharing for AClare analytics.
- Salesforce – CRM and grant tracking integrations (AClare Internal and External Grants Trackers).
- DocuSign & BlueNotary – Trusted electronic notarization and document verification.
- OpenAI – Natural language and reasoning model integration across education and analytics suites.
- Red Hat / IBM Cloud – Container orchestration and compliance automation.

Partner Engagement Matrix

The following matrix illustrates AClareCorp’s interoperability with federal and enterprise ecosystems including NASA, Lockheed Martin, AWS, and Microsoft. Each AClare system has validated integration pathways and aligned mission potential.

For detailed system specifications, R&D outcomes, and market use cases, see the full table included in AClareCorp’s submission binder Part 2 (Core Systems & Compliance).

VI. About AClareCorp

AClare, LLC (AClareCorp) is a Chicago-based technology company building secure, compliant, and federally ready software systems across cybersecurity, compliance, education, finance, and aerospace. Our mission is to unite innovation with integrity so that public and private partners can operate with trust at scale.

Brand Mottos: Moves in silence but shines in style • Refuse to shrink the brilliance — scale it • Stay ready, don't have to get ready • Success before growth — and growth built on precision.
