

LONGING FOR SPRING

At Emmaus

March 11, 18, 25, April 1, 2026

1 to 3 P.M.

Facilitated by Anne M Luther

An invitation to a four part conversation as we move through another Spring /Lenten season. While we do, indeed, long for the springlike atmosphere that Mother Nature brings as days tend to warm and plants begin to sprout there is a larger renewal and rebirth for which we long and hunger.

In a world and country , in a human family, that is struggling to make sense of so much these days, is it possible that we may, together, find more solid ground upon which to stand? Clearly, more than ever, we need one another.

What is wanting to be renewed within each of us? What does “faith” mean to us? What is the vision that inspires and guides us? How are we being invited to wake up, to grow, to become more fully human? How, in our very ordinary lives, may we contribute to the renewal of the world?

These days are meant to provide opportunity for honest, in depth conversation about what, in our lives, really matters and how may what matters be significant in a time of worldwide violence, confusion and collective stress and political unrest?
