

Astronaut Challenge 2023

Patch narrative

SPACEMONT

AEROSPACE & ENGINEERING CLUB

At Sagemont Preparatory School, our mission statement says, in part, that our school "inspires academic excellence through intellectual exploration, entrepreneurship, and innovation" .

Our Patch represents the spirit of our school and team, incorporating our school image of the shield, and colors black and red, and our astronaut team's name **SPACEMONT** in the banner.

The astronaut reflects our unified interests in space discovery, aeronautical engineering, and flight. Also the visor shows our chosen landing site "Connecting Ridge". The shield in our school means the unity of our community as a place to feel safe, and be able to grow everyone's potential and ideas, as well as to teach students how to expand their imagination through means of innovation, and technology, mentored by our teachers Dr. Liu and Mr. Carlson.

We also highlighted the name, and year of the NASA sponsored competition, and incorporated the name of our School club, **SPACEMONT**, that was created with the vision of working together with NASA as our dreamed mentor.

The Spacemont Team...

MENTORS:

Dr. Liu & Mr. Carlson.

MEET THE TEAM:
