

Hill Country Project Management LLC

It's not what we do - It's who we are

CAPABILITY STATEMENT

Hill Country Project Management LLC offers Project & Program Management consulting and Information Technology Staff Augmentation Contract (ITSAC) services. As a certified Texas **HUB subcontractor**, we are actively providing services to Texas agencies as well as directly to our private sector clients. Whether you need augmentation to support legacy projects as you focus on transformation or full scale PMO sourcing, HCPM specializes in finding the the most highly qualified resources quickly for every technology objective.

DIFFERENTIATORS

CERTIFIED: HCPM was founded in January of 2024 by Ron Levi PMP, a senior program management consultant with over 20 years of experience delivering industry-agnostic IT infrastructure and application development projects. By March, HCPM was certified as an MBE and HUB by the SMSDC and the Texas CPA. In July we were added to the HUB Subcontracting Plan of our first DIR ITSAC Prime Awardee, and accomplished our first placement with HHSC.

FOCUSED: HCPM is exclusively devoted to finding and maintaining a bench of the best practitioners in the business. We are certified project managers led and supported by certified project managers. We are service-oriented, process-driven, and exceptionally agile and responsive. We appreciate the importance and value of teaming with Prime awardees to deliver to-the-letter of every solicitation..

In 2025 we plan to work closely with 2-3 prime awardees, develop expertise in responding to and servicing ITSAC job orders, and building capabilities to win our own direct awards in years to come.

TEXANS: Our workforce is global and can work on-premise as well as remotely. Our minority-owned business is Texas-based.
