

CONNECTIONS - BASED LEARNING

CONNECT | COLLABORATE | CULTIVATE

CBL Learning Goal Co-construction

Connection:

Connection Details:

Design Thoughtfully

What needs were you hoping to address as we connect with our learning partners?

What learning goals do you have for this connection? What is a sign that you have achieved your goal?

Network Effectively

From where could you get help to carry out your ideas? How can you step out of your comfort zone?

Create Purposefully

What type of response will you create? How can you help further your knowledge in this area?

Celebrate the Process

How can you effectively document your learning? How can you “work out loud” and share the process?

Some thoughts about your response. Make it visual and moving. Give context to the interaction. Include questions you had, answers you got. Evaluate yourself according to your standards:

CBL Reflection Rubric

	Does not meet	Minimally meets	Fully meets	Exceeds
Design - research sufficiently - address needs - create learning goals - develop a plan				
Evidence				
Network - make connections - receive feedback - respond to feedback - step out of comfort zone				
Evidence				
Create - develop skills - innovate - contribute				
Evidence				
Celebrate - honour collaborators - document the process - share the process				
Evidence
