

Dashboard and Spreadsheet designers: helping you get clarity from your data, allowing you to track relevant metrics and make confident, effective business decisions.

Services offered include:

Microsoft Excel Spreadsheet Mentoring

If you have a challenge with your Excel spreadsheets, you can book an appointment with us. Over Zoom or in-person, we'll guide you through the process to overcome your challenge. Either training you how to do it or just fixing it for you.

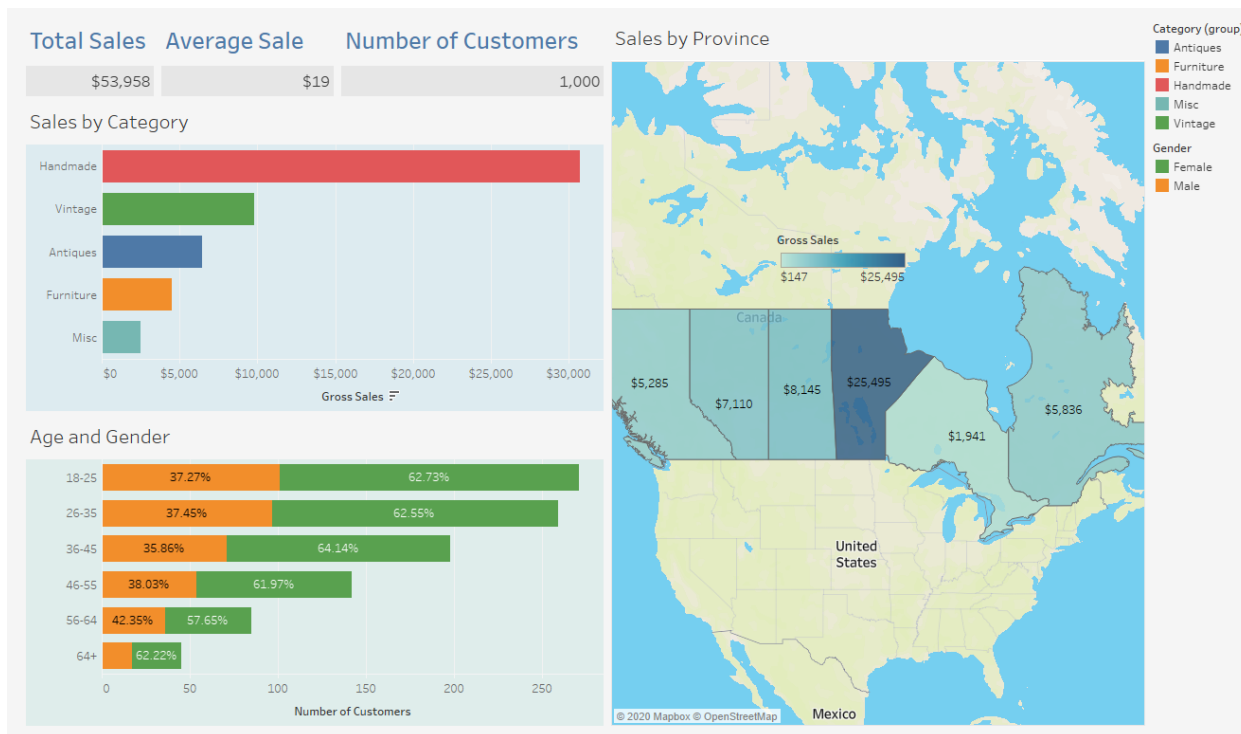

Data Visualization Design Project

Using modern techniques and strategies we will create productive data visualizations (charts, graphs, etc.) for meetings, presentations, and reports. Creating an improved experience for yourself, your audience, and clients.

Business Intelligence Dashboard Design Project

Designing sophisticated, dashboards for your business. Analyzing and viewing even small bits of information can help you make more effective business decisions. Also, interactive dashboards can be used for data mining, to explore fresh, new insights for your business.

The image below is an example of what an interactive dashboard can look like. On the actual dashboard you can easily click to filter by region on the map, or by categories, ages, etc.

Contact us to discuss if your company is a good fit for our services. To help you spend more time on aspects of your business and life that you enjoy.
