

Enabling companies to make confident, effective business decisions: by designing spreadsheets and dashboards that help you get clarity from your data, allowing you to track and easily view relevant KPIs and metrics

Services offered include:

Spreadsheet Mentoring

If you have a challenge with your Microsoft Excel or Google spreadsheets, we guide you through the process to overcome your challenge. Or just fix it for you.

Data Assessment

We assess your company's data and develop a roadmap to get your company on track. If we work on a larger project within 12 months, the data assessment fee will be subtracted.

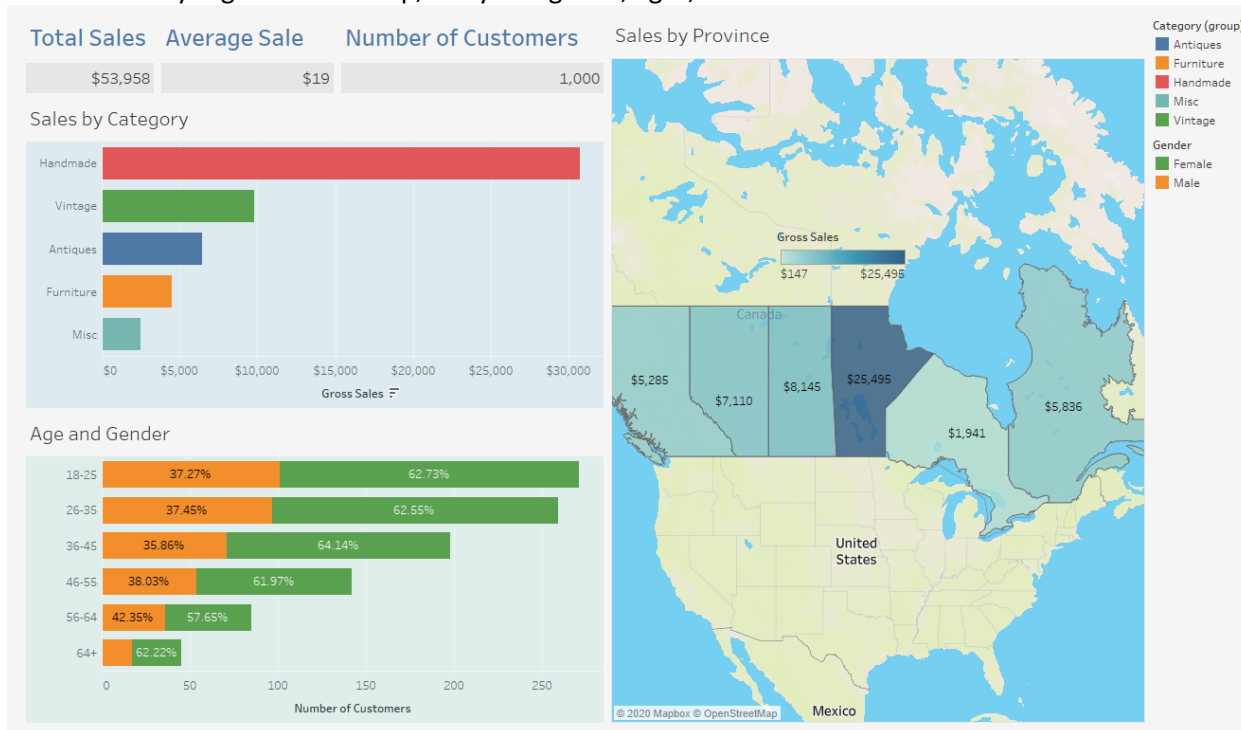

Designing Reports

Using modern data visualization techniques and strategies we design easy to understand reports for presentations or individual use. Creating an improved experience for your audience, clients, and staff.

Designing Dashboards

We design effective dashboards for your business. Enabling you to gather valuable insights for your company. Which assist you to make confident data-driven business decisions.

The image below is an example of what an interactive dashboard can look like. On the actual dashboard you can easily click to filter by region on the map, or by categories, ages, etc.

Contact us to discuss if your company is a good fit for our services.
