

Tim & Laura Carte

New Mexico Church Planting

January – February 2025

Ministry

We shared our missionary burden for the state of New Mexico in several churches in West Virginia, Ohio, North Carolina and Tennessee over the last two months. It was encouraging to see and hear testimonies of how the Lord is working. Please continue to pray for us as we raise needed support to plant a church in the state of New Mexico. We currently are close to 40% of our needed support.

Gospel Advance

Several Mexican pastors have received Bibles and gospel literature from the DLM Distribution & Training Center in Saltillo, Mexico. We have nearly distributed 10,000 pieces of Gospel literature through local churches in Mexico during the last 8 months. Seven young people surrender to be missionaries during the mission conference of Renacer Baptist Church in Honduras. It was a blessing to preach at this conference and help with evangelism and distribution of Bibles and gospel literature. Over 15 pastors have received Bibles and Gospel literature in Honduras and Guatemala from the container shipped by DLM. We saw several people pray to receive Christ and two precious young people were baptized. Please pray as we begin the remodeling projects at the DLM Distribution property in Mexico.

Plan a Missions Trip to help remodel the Distribution & Training Center in Saltillo, Mexico. Pictures Below!

Training

I taught a Philosophy of Missions class in the Honduras Bible College in Puerto Cortes. The Lord is raising up a great host of young men and women in Latin America to evangelize the world. Please pray for the Honduras Bible College and that the Lord will meet some special needs they have so that more young people can be trained.

Church Planting

Research confirms over and over again that young congregations reach more young people, marginalized groups, and unchurched people than older churches. New churches naturally focus more of their energies and resources on non-members and reach more unchurched people than more established congregations. Dozens of studies confirm that the average new church gains most of its new members (60

-80%) from the ranks of people who are not attending any worshipping body, while churches over 10 to 15 years of age gain 80-90% of new members by transfer from other congregations. "A vigorous and continuous approach to church planting is the only way to guarantee an increase in the number of believers..." Please pray that the Lord will show us exactly where to plant a Church in New Mexico.
