We are pleased to announce an exciting new partnership between ROTYPACK and PDS a leading innovator in packaging equipment technology.

This collaboration allows us to offer our clients state-of-the-art packaging solutions that are more efficient, reliable, and tailored to meet evolving industry needs.

By combining our expertise in the PACKAGING WORLD with ROTYPACK's advanced equipment, we can deliver:

- Improved production efficiency
- Enhanced product protection and quality
- Sustainable and cost-effective packaging options
- Ability to provide service, support and Parts in North, Central and South America.
- Full service team available as needed .

We believe this partnership will bring significant value to our customers and strengthen our ability to support your business growth.

If you'd like to learn more about our expanded capabilities or discuss how these solutions can benefit your operations, please feel free to reach out to :

Roger Abea  
954.296.3582.

Thank you for your continued trust in PDS  
We look forward to serving you with even greater innovation and excellence.

Commit your work to the LORD, and then your plans will succeed. Proverbs 16:3

Shanghai Rotypack Intelligent Equipment Co., Ltd.

Shanghai Rotypack Intelligent Equipment Co., Ltd. is an enterprise specializing in the manufacturing of flexible packaging machines. ROTYPACK product portfolio includes full-servo HFFS, FFS packaging machines, widely applied in industries such as food, pharmaceuticals, healthcare, beverages, dairy, and chemicals.

With good performance in technological innovation, ROTYPACK has taken a role by drafting two industry standards: Technical Specifications for Fully Automatic FFS Packaging Machines and Technical Specifications for Fully Automatic HFFS Packaging Machines. These contributions propel the industry toward higher technological advancement.

Commit your work to the LORD, and then your plans will succeed. Proverbs 16:3

## Corporate Style

Rotypack Intelligent Equipment focuses on building a corporate culture and nurturing a team. The company respects talent, encourages innovation and is committed to creating a corporate environment with a strong humanist atmosphere and a strong sense of social responsibility. The firm's team is made up of a mix of young and experienced post-80s talent. They think independently and work tacitly, relying on their own strength to recognize their own value, giving a powerful impetus to the development of the company.

## Industry Applications

Shanghai Rotypack Intelligent Equipment is also committed to high-quality packaging design, providing professional automated packaging equipment, production line custom design, system integration and overall solutions to high-quality customers in different industries. With its years of industry experience, it has won the trust of many industries and customers.

### Packaging Solutions

As an innovative flexible packaging technology company, ROTYPACK focuses on intelligent flexible packaging equipment R&D and manufacturing, as well as upstream and downstream integrated solutions for each customer, providing independent customer system capabilities, covering solutions, production and installation, debugging, customer production and other processes.

### Customized Production Line Design

ROTYPACK's combined with PDS professional technical team is able to carry out complex mechanical design, electronic engineering and software development. We are able to provide customized packaging solutions according to the bag type and size requirements required by our customers. At the same time, we continuously drive technological innovation by integrating advanced technologies such as artificial intelligence (AI), the Internet of Things (IoT), and machine learning (ML) to enhance the performance and efficiency of our packaging machines.

### Automatic Packaging Equipment

We will integrate packaging equipment with our customers' existing production systems for seamless connectivity and provide automated packaging solutions to increase production efficiency and reduce labor costs.

### Professional Processing and Manufacturing

ROTYPACK implements strict workshop on-site management, implements the 6S management system and follows various operating procedures, and continuously strengthens the research and development and innovation of core technologies. With advanced production processes, strict quality management, and precise production inspection processes, we ensure the good performance of each product.

### We Can Provide

#### Customized Product Design

We are capable of executing complex mechanical design, electronic engineering, and software development, delivering customized packaging solutions tailored to customers' bag type and size requirements.
