237110 - Water and Sewer Line and Related Structures Construction

237210 - Land Subdivision

237310 - Highway, Street, and Bridge Construction

PAST PERFORMANCE

Client Contact: Bill Rice
Phone: (704) 309-1552

Project Description:

Email: landman3478@hotmail.com

Peregrination Contractors was contracted to address an existing sewer lateral failure caused by the original contractor. Our scope of work included the removal of the failed system and installation of a new 4-inch sewer lateral, securely tied into an 8-inch PVC SDR 35 main using a saddle connection. The project required backfilling and compaction in both the roadway and green space, asphalt restoration in the roadway, and grading for concrete placement. The green areas were graded and prepared for sod installation. Upon completion, the roadway and all work areas were fully restored to their original condition. The new installation was then inspected via camera and successfully passed for active use.

Client Contact: Johnny Evans
Phone: (336) 572-2434

Project Description:

Email: johnny.evans@centurycommunities.com

Peregrination Contractors completed the construction and excavation of an existing retention pond at The Retreat, Harrisburg, NC, for Century Communities. The project included dewatering operations and the removal of approximately 1,800 tons of unsuitable material from the pond. Rough and fine grading were performed over an area of 200 LF by 200 LF, ensuring proper shaping and stabilization. As-built drawings were submitted, reviewed, and successfully approved for Century Communities.

DIFFERENTIATORS

- Ten years of experience in the contracting industry
- Tackling challenging and unique projects
- Willingness to exceed expectations in unventured areas
- Shared vision and commitment to precision among team members
- Culture valuing employee input and satisfaction
- Emphasis on thoroughness and excellence in execution
- Public Utilities Contractor License (#102642)
- Prequalified NCDOT Subcontractor
- Fully Insured (Not bonded as we will provide whatever bond is necessary for each job)
