

# THE COMPLETE ENGINEERED WATER SYSTEM

Filtration • Purification • Electrochemistry • Carbon Finishing

From Raw Water to Precision-Controlled Output

RAW WATER

STAGE 1

STAGE 2

STAGE 3

STAGE 3

STAGE 5

## 1 PRE-FILTRATION

Sediment & Coconut Carbon Block

- Removes particulates
- Reduces chlorine & organics
- Prepares water for purification

## 2 CSM RO PURIFICATION

- Removes Dissolved Solids (TDS)

## 3 RE-MINERALIZATION

- Restore Essential Minerals
- PH Neutralization

## 4 ELECTROLYSIS

Neutral Dual Polarity Electrolysis

- Controlled oxidation & reduction
- Balanced ion activation

## 5 POST-FILTRATION

Coconut Carbon Polishing

- Removes residual byproducts
- Ensures clean final delivery

# *Esperer* H<sub>2</sub>O

## The Hydration Machine

# Esperer H<sub>2</sub>O

Model ES 2000

— The Hydration Machine —

Complete system with 150 GPD CSM Reverse Osmosis, Re-Mineralization, Double Coconut Carbon Block, Boosted 60psi, Storage Tank, and Ionizer Faucet

The Future of Water Starts Here

*Esperer.* H<sub>2</sub>O™

# Your Water Is Not Helping You

- Chemically treated
- Contaminated
- Low quality
- Poorly absorbed

Even bottled and filtered water don't go far enough.

# Meet Esperer.H<sub>2</sub>O

A next-generation water system that doesn't just clean water — it

- ✓ Coconut Carbon Block Pre-Filtration
- ✓ CSM Reverse Osmosis Purification
- ✓ Esperer.H<sub>2</sub>O Electrolysis
- ✓ Coconut carbon block finishing

Purify

Balance

Optimize

CSM RO

pH Neutralization

Electrolyze

# What Makes It Different

## Standard Systems

- ✓ Only Filters Water
- ✓ Focus on pH
- ✓ Basic filtration

VS

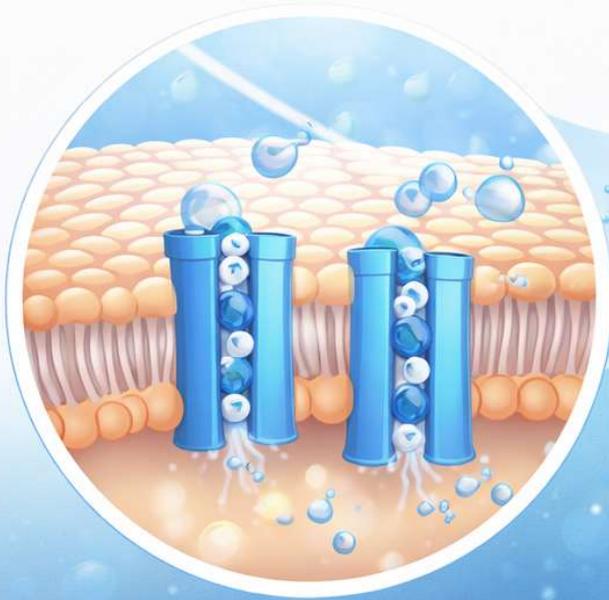

## Esperer.H<sub>2</sub>O™

- ✓ Carbon Block Filtration + CSM Reverse Osmosis
- ✓ Advanced Dual Polarity Electrochemistry
- ✓ Focus on perfect balance

## Better Hydration

Designed to interact efficiently with your body's natural water channels.

✓ Reverse osmosis

✓ Advanced filtration

✓ Electrochemical processing

# Introducing Esperer.H<sub>2</sub>O™

Your key to better hydration and clean water.

## Clean Water

Removes contaminants  
and chemicals

## Better Hydration

Optimized for  
performance

## Save Money

No more bottled water

## Why Not Standard Alkaline Water?

### Alkaline Water

- Artificially altered
- Focuses on pH only
- Does not work well in body
- Has no energy

### Optimizer

- Neutral electrolysis
- Balances water for hydration
- Maximizes energy

### Neutral eWater

- Electronically balanced
- Works with your body
- Optimizes hydration

## Simple Benefits

### Enjoy Better Water

Fresh tasting water for drinking and cooking

### Remove Contaminants

Eliminates lead, chlorine, bacteria and more

### Stop Buying Bottled Water

Save hundreds on bottled water costs

### Long-Lasting Solution

Reliable and professional components

# How Esperer.H<sub>2</sub>O™ Works

The Components:

# The System Esperer.H<sub>2</sub>O™

- 1 Sediment & Coconut Carbon Pre Filtration**  
Pre-treatment for Reverse Osmosis
- 2 CSM Reverse Osmosis**  
Removes up to 99% of toxins
- 3 Water Storage Tank**  
Stores clean RO Zero Water
- 4 Re-Mineralization**  
pH Neutralization
- 5 Esperer.H<sub>2</sub>O model ES 2000**  
Optimizes water using electrolysis
- 6 Final Filtration**  
Final filtration removing further toxins

Filtering and Optimizing Water for Superior Hydration

# Who is It For?

For anyone who wants pure, balanced, optimized hydration:

Health-  
Conscious  
Families

1

Fitness  
Enthusiasts

2

Busy  
Professionals

3

Positive  
Agers

3

Eco-Friendly  
People

4

## Our Mission

To provide the clean, optimized,  
and naturally balanced hydration  
every home deserves.
