➤ **Pastor to explain the reason for not assembling.**

Your Safety First! After much sharing it has been decided to suspend our physically gathering together at Discovery - East Valley and New Home - West Valley for this coming Sunday. Your safety and taking the necessary precautions to prepare for what is coming our way is far more important than physically coming together, potentially risking your health, and possibly your lives. Some churches are continuing service as regularly

scheduled and that is ok if that is the decision of the Pastor and leadership. However, for me for you, your safety is first. So, I error on the side of caution. I would rather be safe than sorry.

➤ **Share and Encourage Basic Prevention Practices.**

Your coronavirus preparedness kit

Health and emergency officials have long recommended homes have an emergency preparedness kit to at least get you through several days at home without power. Should there be a quarantine issued by local authorities – or you self-impose one on you and your family – it would be unlikely to go beyond 14 days, which is the expected incubation period.

Here's a checklist for some suggested items:

• **Food.** Fresh fruits and vegetables will likely spoil over 14 days, so canned foods that have a long storage life and need little or no cooking are recommended. Meat products, fish or beans, soups, broths and stews, fruits and fruit juices, vegetables, canned (or powdered) milk, are among good supply choices recommended by the [Texas A&M Agrilife Extension Disaster Education Network](#).

Frozen foods are an option, too. Other recommended foods are peanut butter, jelly, crackers, nuts, trail mix, dried fruits, granola bars, bouillon cubes, and staples like sugar, salt, pepper. (Keep in mind you may need to include some special foods for babies and family members on special diets, as well as pet foods.)

• **Water and liquids.** [The Centers for Disease Control and Prevention](#) suggests you have plenty of fluids on hand, such as bottled water and supply of fluids with electrolytes, such as Pedialyte or Gatorade.

• **Medicine.** You will want to have a 14-day supply of any prescription medications for those in your home. You may also want over-the-counter pain relievers, antacids, cough and cold medicines, and vitamins.

• **Supplies.** Many homes already have a 14-day supply of most daily items on hand. But make sure you have toothpaste, toilet paper, feminine supplies, diapers, laundry detergent and disinfectant.

Some of the steps we as a pastor and people are taking to be **“SANITARY-SENSITIVE”** are as follows:

- Installing hand sanitizers as soon as possible at selected entrances to our campus buildings.
- Encouraging worshipers to be “SANITARY-SENSITIVE”.
- Not holding hands during our congregational prayer opportunities.
- Engaging in the following fellowshiping interactions as each of us and others feel comfortable—handshaking, fist-bumping, hugging, touching covered shoulders, holy kissing, interlocking covered arms, air-high five, air-fist bump, etc. Do not take offense if other worshipers choose not to shake hands, fist-bump, hug, touch covered shoulders, holy kiss, interlock covered arms, etc.
- In consultation with our Chairmen, we will determine how we will adjust the way we serve the Lord’s Supper at both worship services.
- **Most importantly, if you are contagiously sick with a cold, flu or other illness, please stay at home until you are well.** However, please remain connected to NHBC via social media whenever possible.

What can we do to help stay safe? Here are 8 tips for the Coronavirus Era:

1. Wash your hands with soap and water for 20 seconds often. Especially before eating and after using the bathroom.

2. Cover your mouth and nose with your elbow or a tissue when coughing or sneezing. (Then properly discard the tissue)
3. Avoid touching eyes, nose, and mouth without first washing your hands for 20 seconds with soap and water.
4. Avoid close contact with anyone who is sick.
5. Clean and disinfect surfaces you frequently touch.
6. Get your flu shot.
7. Avoid crowds, cruise ships, and rethink any unnecessary travel until the viral threat is over. It is best for everyone.
8. Use my ***FRESH*™** strategy to help your body fight an infection. *I'd love to share each element:*
 - F is for Food
 - R is for Relaxation
 - E is for Exercise
 - S is for Sleep
 - H is for Hydration

➤ **Share How to Give and Financially Support (Website, Push Pay App)**

I am asking that everyone please continue to give financially so that we may continue to take care of the needs of the church. Here are our options:

- Give online at atyournewhome.com
- Mail to New Home: 1144 W. Sherman Street, Phoenix, AZ 85007

Note: New Home Push Pay app is coming soon

➤ **Family Prayer: Numbers 6:24-26**

The Lord bless you and keep you. The Lord make His face to shine upon you and be gracious to you. The Lord lift up His countenance upon you; and the Lord give you peace. In Jesus name receive the Lord's peace and all of the people of God said Amen.

Blessings & Love,
Pastor Jackson
