

Anesthesia Instruction Sheet

Your pet is scheduled to have a procedure done that requires anesthesia or sedation. Please follow these instructions to ensure that your pet has as safe of an anesthetic procedure as possible.

- Please do not feed your pet after 10 pm the night before surgery. Water is fine.
- Please do not let your pet drink an excessive amount of water the morning of surgery.
- Please give all medications that you routinely do, unless instructed otherwise by the veterinary staff. Please bring all current medications for use during the hospital stay.
- Please have your pet to the hospital by 8:30 am the morning of the procedure. We open at 7:00 for early drop-off, or you can leave your pet the night before if necessary.
- Please let your pet urinate/defecate before bringing them to the clinic.
- Please let us know if your pet is having any abnormal symptoms including vomiting, diarrhea, coughing, sneezing, etc.

Thank you for trusting us with the care of your pet. We will call or text as soon as your pet is awake!
