Bendix Radio

60 Years in Baltimore

Bendix Radio Begins in Baltimore
Bendix Radio begins in 1937 when the Radio Research Company (part of Bendix Radio's operations) moved to 925 East Fort Avenue, just 2 blocks from the Baltimore Museum of Industry. A larger facility in Towson served as headquarters from 1941 to 1966. What began as one employee eventually grew to over 17 employees by the end of World War II.
