

**ANSWERS TO SOME COMMON**

**Questions About EPIDIOLEX**

What is EPIDIOLEX?

How is EPIDIOLEX taken?

Does EPIDIOLEX interact with my other medications?

How do I know if EPIDIOLEX is right for me or my loved one?

Can EPIDIOLEX be taken with a gastrostomy tube (g-tube)?

How is EPIDIOLEX dosed?

Is EPIDIOLEX compatible with the ketogenic diet?

What are the most common side effects of EPIDIOLEX?

How do I talk to my doctor about EPIDIOLEX?

How do I receive my EPIDIOLEX prescription?

What is in EPIDIOLEX?

The ingredients that make up EPIDIOLEX include cannabidiol (CBD), sesame seed oil, sucralose (an artificial sweetener), alcohol, and strawberry flavor. Alcohol is added to dissolve the sucralose, which is added for flavor and to ensure that EPIDIOLEX is compatible with the ketogenic diet.

Does EPIDIOLEX contain dairy, gluten, or nuts?

Will EPIDIOLEX get me/my loved one high?

Is EPIDIOLEX legal?

How do I find out about financial or patient support for EPIDIOLEX?
