

# Two Measly Spots!

## Discussion Prompts For Young Readers

We suggest you read the book aloud and remind your "littles" that Lulu was a very spirited, confident ladybug, until she discovered she had only "Two Measly Spots!" Suddenly she felt she did not have enough.

- a. Why did Lulu want more spots? Do you think her two spots were enough? What does "enough" mean to you?
- b. Are there times when you, like Lulu, don't think you are or have enough? When is that?
- c. Are there times when you know you are or have *more* than enough? When is that? What does that feel like?
- d. Fawn, Salamander and Snake all had enough spots to share, but didn't. If you had enough of something, like plenty of spots, would you share it with others if you could? Why or why not?
